INTERESTING FROM WASHINGTON.

Cause of the Failure to Ratify the Cass-Yrisarri Treaty—The Non-Arrival of Lord Lyon—Dispatches from New-Granada—The Paraguay Dispute.

Special Dispatch to the New-York Times.

WASHINGTON, Friday, April 1.

General LAMAR announces in his dispatches the ratification of one of the Ousseley Treaties. The Mosquito Treaty is now under consideration. The British Legation, I understand, has dispatches to the same effect. The cause of the ratification of the Ousley and the postponement of the Cass-Yrisarri Treaty is of easy explanation. These treaties were precisely alike in the original drafts. OUSSLEY had discretionary power, and accommodated his treaty to the views of Nicaragua, while Mr. LAMAR had definite instructions and could not exceed them—hence the one failed while the other succeeded. A copy of the treaty, as ratified, is now in this City, and varies but little from the copy as published in the TIMES. I have reason to believe that Great Britain desired and urged the ratification of our treaty.

Owing to the non-arrival of his successor, Lord NAPIER has indefinitely postponed the sale of his furniture. The *Curacoa* is known to be a slow vessel, and it is thought there are no just grounds as yet for apprehensions as to Lord LYON's safety.

Count DE SARTIGES has received no leave of absence up to this date, though he has had assurances that leave would be granted.

The New-Granadian Legation is in the receipt of voluminous dispatches, including copies of all Cabinet reports. Peace is restored in Magdalena. The road from the valley of Cauca to the Pacific is in process of construction, with ample funds for its completion. This road opens to California and all the Southern Republics what BOLIVAR once termed the "Italy of the New-World." There seems to be no fear that MOSQUERA will regain power in Venezuela. The Congress and people of New-Granada again profess the kindest feelings towards our Government.

Dispatches received at the State Department from Commissioner BOWLIN report the sympathy of all the South American States with Paraguay and against us, though he still expresses a hope of being able to arrange all matters amicably with LOPEZ. Q.

[FROM THE REPORTER FOR THE ASSOCIATED PRESS.]

WASHINGTON, Friday, April 1.

The *Union* of to-day, has an apparently semi-official article on the Clayton-Bulwer Treaty, saying the President has never changed his policy concerning it; that the American construction will be substantially carried into effect; that the Mosquito Protectorate and the Bay Islands will, no doubt, be surrendered by Great Britain to Nicaragua and Honduras respectively; that the substance of Sir WM. GORE OUSELEY's instructions has been communicated to this Government only through Lord NAPIER; that it has full faith in the loyalty of the British Government, and that if Sir GORE OUSELEY has exceeded his instructions in any particular, he will, no doubt, be called to a rigid account.

It is well understood that the Cabinet to-day had under consideration the subject of Central American affairs. Advices from the Commander of the *Jamestown* confirm the newspaper statements relative to recent events in Nicaragua. Our Government has nothing from an official source later than the 25th of February relative to the treaties, when that of OUSELEY, of commerce, navigation and transit had been ratified, with an additional article to the effect that Nicaragua surrendered none of her rights over Musquito. The Musquito treaty was at that time pending, and the Cass-Yrisarri treaty had not been acted on. Our Government will accordingly await further reliable intelligence, before it can act decisively, so far as Great Britain is concerned. If it shall appear that OUSELEY has transcended or violated his instructions, a formal request will be made of England to disavow his acts, if she shall not do so voluntarily. It is thought, however, she will carry out in good faith the understanding between the Governments of Great Britain and the United States, relative to the settlement of the irritating questions growing out of the different interpretations of the Clayton-Bulwer treaty, nor is it improbable, should Nicaragua ratify all the British treaties and reject ours, that Minister LAMAR will be withdrawn, and General JEREZ, the Nicaraguan Minister at Washington be tendered his passports. Such is the position of the question, according to the best available information, but much depends on the character of future official advices from Nicaragua. Our vessels will, it is said, be concentrated at the most exposed points for the protection of the persons and property of American citizens within their reach. To proceed to the interior of the country, would be an act of war, which will not be committed, but there is no doubt, from what has recently transpired, that the President will exert, to the utmost extent, all the powers conferred upon him by the Constitution and laws.

The Navy Department has named the new third-class steamers as follows: That at Portsmouth, New-Hampshire, the *Mohican*; at Boston, the *Narragansett*; at Brooklyn, the *Iroquois*; the large one at Philadelphia, the *Wyoming*, and the small one the *Paumee*; at Norfolk, the *Dacotah*; at Pensacola, the *Seminole*; at Mare Island, California, the *Saginaw*.

From official advices received to-day, it appears that the steam frigate *Minnesota* reached Bombay on the 16th of January, having on board ex-Minister REED, who left on the 25th for Suez. The frigate had visited Singapore and Penang, and several ports in Ceylon. She occasioned expressions of surprise and admiration, as she has ever done in the East. In a few days she was to leave for Muscat, in Arabia, and passing from thence to the Cape of Good Hope, she would probably touch at Zanzibar.

A letter from the Commander of the U. S. frigate *Savannah*, dated at VERA CRUZ, March 11, confirms the former reports of the defeat of MIRAMON, and the success of the Constitutionalists in the interior, and their advance on the City of Mexico.

It is probable that Ex-Senator JONES will withdraw his declination of the Bogota Mission.

There are at least twenty applicants for the vacant Commissionerships of Patents and of Indian Affairs, but the appointments will probably not be made for a week to come.

The failure of the arrival at Annapolis of the *Curaçoa* with Lord LYONS excites additional fears for his safety.

A dispatch from Charleston, S. C., says the *Courier*, contains a telegram from Washington that war in Europe has actually commenced, and that GEORGE SANDERS had brought a dispatch to that effect to the President. Mr. MILES, Member of Congress from Charleston, telegraphed back that Lord NAPIER knew nothing about the truth of the report. The *Courier*, however, fails to be convinced.

Minister BOWLIN writes hopefully of satisfactorily arranging the difficulties with Paraguay.

AFFAIRS AT ALBANY.

Easy Working of the Machine—Perils of One's Pets—Great Chances for Dubious Projects—The City Charter Ground—The City Railroads through the Committee of Nine—How the Registry Law Heads—Mr. Wetmore's Seat not yet Awarded—Private and Local Matters.

From Our Own Correspondent.

ALBANY, Friday, April 1, 1859.

Legislation, about these days, is a well-oiled wheel—running easy—a greased bolt of lightning, striking terribly where it was unlooked for; an unbridled night-mare, settling most heavily on the chests of those unused to irregular habits. In both Houses, what little is done, is done by unanimous consent—the Assembly has not been out of the order of third reading, except by odd snatches, for a week. Business consists in watching the reports of the Grinding Committee. That modern invention holds its sessions at the same hour that the House is in session, leaving its most innocent member in the House to make its reports. If one steps out to get a pet ground, on his return he finds the one he most abhorred has been referred, to report complete. But if he prefers to watch the report, his pet dies. Happy is the member who has a live friend among the Grinders.

Yesterday morning, the Committee of Nine, despairing after two days' waiting of an opportunity to catch certain gentlemen out, rolled its duplicate report in. It contained the City Charter Omnibus Reform, the Atlantic Tunnel Removal, and several other equally innocent. It took two or three hours to haul off the pugnacious gentlemen who were disposed to send one or another of its bills spinning on to the table. But the statement boldly made that the Lobby was ruining the Grinding Committee served to compact its members—Mr. LAWRENCE always excepted who whether in or out of Committee runs his own vehicle—and with their force and their friends not an item could be knocked out of their report. To-day they came in early with a list of 41 bills—of which two, the New-York Constable bill and the New-York City Cemetery act, were knocked out, and, without a successful motion to recommit, are killed. The motion to treat the Harlem Railroad bill in the same way was lost. Yeas, 28; Nays, 66. Among those accepted and to be sent to Nursing Committees with power to report complete, are bills in relation to Insurance Companies in New-York and Kings, to the New-York Courts, the Dime Savings Bank, of Brooklyn, (Senate,) to the Connecticut Boundary Commission, to the Society for the relief of poor women and small children, to providing for additional Notaries in New-York, to the Public Health of New-Utrecht, to the New-York Orphan Asylum, to the Corpus Christi Ship Channel Incorporation, (from the Senate,) to the Peter Cooper Institute, and to the St. David's Benevolent Society.

The Grinding Committee has been in session all day upon the New-York City Railroads, but adjourned without disposing of them. They ground out, however, the Insurance Department bill—Mr. Comptroller CHURCH's elaborate argument against it going for nothing. While Mr. CONKLING and Mr. OPDYKE were laboring to prevent their action on the City Railroads, a quiet piece of mischief was going on in the House. The Omnibus Charter bill had been referred to a Committee whom Metropolitans could not complain of as likely to have any prejudices on the subject, to wit: Barna Johnson, of Delaware; Mackin, of Dutchess; Holt, of somewhere up north; Lawrence, of Queens and Bacheller, of Saratoga. Dr. HOLT terminated the very tedious session of this Committee by rising to report the bill to the House complete. He had unanimous consent, and unanimously the report was agreed to. It was full half an hour after this that Mr. CONKLING put himself into array for rejecting the report when it should come in. He cordially tendered his hat to the Doctor when he discovered how much too late for dinner he was.

There are now 128 bills, mostly originating in the lower House, ready and waiting for a third reading and 40 more will be ready by Saturday morning. Yet of third readings there was only one yesterday, though 45 were ordered to that category, and not more than 20 bills have been passed to day.

Meanwhile, even to-day, new bills have been introduced, and one which came up to a member inclosed in a letter to a member last evening was sent to a Committee to report complete before the wafer on the letter was dry. Smart men work with great rapidity just now, and if one should take a chew of tobacco with deliberation, while he is inserting the quid the biggest piece of rascality that it ever entered the head of a legislator to devise may go up for the first time to the Clerk's desk and come back, only needing one gentle lick more to be in shape for a final passage. No one talks any longer of "niggers in the fence"—it will soon be necessary to reopen the African Slave-trade to find little colored boys enough to stick in the fences that gape for their accommodation.

"Let us look to the Senate," is the consoling advice of conservative people on such occasions. Their mill grinds slowly—their Committee of eight feeds slowly, and slowly issues its grist. But the Standing Committee are sending in their reports rapidly. The following were to-day ordered to a third reading: To increase the number of Coroners in Queens County; divers propositions to submit to the people a law for the loan of $3 000,000; authorizing notaries to perform the duties of Commissioners of Deeds; incorporating the Flushing and College Point Steamboat Company; Wallabout Martyrs' Monument; changing the name of a street in Brooklyn to Fort Green-place; to provide the payment of certain claims against the City of Brooklyn, and extending the time in which the Hicksville and Cold Spring Railroad may be finished—all which, except the Loan act, have passed the Assembly, and hence are in pretty good condition.

The Brooklyn Sewerage bill is in the hands of the following Committee to report complete, viz: Messrs. Tuthill, Moore, Duryea, Wilson and Coleman. The Brooklyn Water bill is referred to a Select Committee to report complete, viz: Messrs. Andrus, Meserole, Tuthill, Duryea and Gardner.

The Woman's Library bill is just announced engrossed. It will probably be read a third time to-night.

Mr. NOXON being anxious to make a speech on the disputed seat, the question whether or not Mr. WETMORE is entitled to be called Senator is postponed to next Monday.

The Registry bill has at last been fixed in the Senate,—the Assembly bill being adopted with some amendments by Mr. NOXON. As Mr. N. is the author of the Assembly bill, its character is not much altered by the amendments adopted. The Committee of the Whole attempted to report it to the Senate, but that motion was tabled.

The three City Railroads, which I have already announced as "a sure thing," are yet deemed a sure thing so far as the Assembly is concerned; but in the Senate they may scrape the bottom. The Grinding Committee is supposed to stand three for and five against them. They would stand a better chance in the Committee of the Whole. 5 P. M.—The three are just ground through the Assembly's Committee of nine—2 to 1. GLAUCUS.

NEW YORK LEGISLATURE.

SENATE.....ALBANY, Friday, April 1.

Mr. DIVEN, from the Finance Committee, reported the bill authorizing a loan of $2,500,000, to pay the floating debt, and it was ordered to a third reading.

Mr. PROSSER reported favorably the Assembly bill to provide for the payment of the interest on the Canal Commissioners' drafts.

On motion of Mr. SPINOLA, the bill was laid on the table, and ordered to be printed.

A large number of Assembly bills were reported from the Committee.

The Central Park enlargement bill was passed.

The bill to incorporate the New-York Bay Steamboat Company was lost, and a motion to reconsider laid on the table.

The bill to protect the liberty of witnesses was then taken up and debated.

AFTERNOON SESSION.

The bills amending the License Law were the special order, but were postponed till Wednesday evening.

The following bills were ordered to a third reading: Relative to the Protestant Episcopal Public Schools, New-York.

To provide payment for the work done and material furnished on a certain part of the Erie Canal Enlargement.

The bill to close the canal locks on Sunday coming up, a long skirmish took place upon it.

Mr. SPINOLA endeavored to fight off the final vote upon it, and numerous motions were made to amend, to postpone the vote and to lay the bill on the table all of which were voted down by decisive majorities.

ASSEMBLY.....ALBANY, Friday, April 1

The Grinding Committee reported several bills.

Mr. CONKLING moved to strike out from the list to extend the term of New-York Constables from one to three years.

Mr. C. S. SPENCER opposed the motion.

Mr. S. S. CHILDS hoped the motion would prevail. He favored the extension of the terms of the Constables from Jan. 1, 1860, but was unwilling to keep in office longer than one year the Constables now in, as many of them were infirm and very bad men.

The bill was stricken out from the report.

Mr. CONKLING then moved to strike out the bill authorizing payment for the lands taken for the City Cemetery, New-York. He designated the bill as improper to be passed. Payment had been refused by the Supervisors, and the bill sought to legalize a very corrupt transaction.

Mr. C. S. SPENCER opposed the motion to strike out, and defended the bill.

Mr. S. S. CHILDS supported the motion.

The bill was stricken out.

An attempt was made to strike out the bill to extend the charter of the Harlem Railroad, but it failed.

The Speaker called the attention of the House to the fact that 128 bills now lay on the table for a third reading; that the standing Committees had just reported 40 more, and that other bills had been referred to special Committees, which would swell the number to 180. If the House continued to make special orders, the Assembly bills thus ready for a third reading could not be acted on in the Senate before the adjournment, and any bills ordered in future to a third reading could not be expected to go through. He desired the House to understand these facts.

Mr. SMITH stated the importance of the consideration of the New-York Tax bill, and moved it be taken up. Lost.

The bill remodeling the New-York Municipal offices was reported complete, and ordered to a third reading.

The House then took up the third-reading bills, and a number of private interest merely were passed.

The bill remodeling the tax and assessment law in the City of New-York was passed. It creates three Commissioners to be appointed by the Comptroller, to hold office for five years, and abolishes the offices of Ward Assessors and Commissioners of Taxes and Assessments as now existing.

Mr. SMITH introduced a bill to incorporate the Atlantic and Pacific Steamship Company, with a capital of $1,000,000, for twenty years. The Corporators are EDWIN CROSWELL, SPENCER KIRBY, D. M. CARRINGTON and W. S. ROBERTS.

AFTERNOON SESSION.

BILLS PASSED.

To reduce the capital stock of the Cayuga and Susquehanna Railroad.

To incorporate the Union Dime Savings Bank, New-York.

To incorporate the Woman's Library in New-York.

To amend the charter of the East River Insurance Company.

In relation to the rendition of accounts by administrators.

To provide for supplying the vacancies in the office of Justice of the Peace in several towns of this State.

Also, several private bills.

The bill to confer additional powers on the Fire Commissioners of New-York came up for a third reading.

Mr. SMITH moved to recommit the bill, as in its present shape it was not acceptable to firemen.

Mr. C. SPENCER opposed the motion to recommit, but moved to lay the bill on the table for the present. Carried.

The bill to prevent the erection of unsafe buildings in New-York came up for a final reading.

Mr. GOVER moved to recommit the bill for amendment.

Mr. TOMLINSON moved to lay the bill on the table. Carried.

The Grinding Committee reported a number of bills, among them the following:

To authorize a Railroad in Seventh-avenue, New-York.

Also, a Railroad in Fourteenth street and other streets, New York.

Also, a railroad in Avenue D and other streets, New-York.

Amending the act to prevent the issue of false receipts by warehousemen.

Requiring County Treasurers to file reports.

To provide for the reduction of the capital stock of banking associations.

To facilitate the correction of assessment rolls.

To incorporate the New-York Preparatory School of Medicine.

Mr. OPDYKE moved to strike out from the report the bills relating to the New-York railroads. He spoke at length in support of the motion, arguing that the railroads of the City of New-York are injurious rather than beneficial; that if their character were different and they were useful, as their warmest advocates maintain, there were enough of them already; that if more were needed they should be constructed under general laws instead of special grants, and that under the decision of the Court of Appeals any legislative grant of this kind is invalid unless backed by the consent of the owners of property in the streets through which the railroads pass. These objections he believed sound and unanswerable, and should, in his judgment, be fatal to the measures before the House, but they sank into insignificance when compared to the objections he had yet to urge. He believed the bills were full of inaccuracies. The corporators asked for powers without any suitable checks for the protection of passengers. They asked it, too, as a free gift. The charities of the State had been turned away unsatisfied, and now it was proposed to confer millions on these railroad parties. The Constitution forbids the taking of private property for public use without a fair compensation, yet it is proposed to do so. In plain language, this was robbery; but when it is done by legislation it is spoliation. Mr. OPDYKE then proceeded to comment on the rumors which prevailed about lobby influence being used to pass these bills. He had not come in contact with that influence, yet it was said to be in existence, and its odor was abroad. He believed there were a hundred people here who were importuning members to pass these bills. He had himself been argued with in favor of these bills and other members had also been approached. It was said that great exertions had been used to convert the Republican Committee who had once declared against these bills, and report said that ten thousand dollars had been offered one man to advocate these bills. Rumor had it also that a prominent gentleman of this City, whose liberal and enlightened views, keen sagacity, and high position, entitle him to every respect, had, with his influence, entered the lists and interested himself for these bills. It is said that the gentleman who presented the Seventh-avenue bill received it from him.

Mr. C. S. SPENCER—If the gentleman will allow me to interrupt him, I will state distinctly, in justice to all parties, that this statement is entirely incorrect.

Mr. OPDYKE continued—He knew nothing about the fact, and had only stated what rumor reported. He was authorized to offer half a million of dollars for that very franchise. He deemed it an unseemly spectacle to see party leaders endeavor to induce their political friends to incur the odium of such measures, and believed that no party could pass measures so glaringly unjust without injury. He also believed that the Governor would veto the bill if it was passed. No person in sober judgment should vote to give away a franchise for which half a million of dollars was offered. He desired to read to the House a letter picked up in a Committee-room, addressed to a member of the Grinding Committee by an Ex-Senator urging the passage of the bills without debate.

Mr. MILLER rose to a point of order, and objected to the reading of the letter.

The Speaker ruled the point of order well taken.

Mr. OPDYKE concluded by urging the rejection of the bills.

The letter which Mr. OPDYKE alluded to was addressed to Mr. ABBOTT by Mr. WM. BEACH. It advocates the passage of the bills through the Grinding Committee without debate, on the ground that discussion can be had before the Special Committee, to which the bill must be referred to be reported complete. It also states that for every name erased from the application for their report twenty others could have been obtained had the friends of the bill had time to procure them.

Mr. GOVER said that the gentlemen from New-York had denounced the lobby severely, and talked about gentlemen on the floor as being under the influence of lobbymen and outsiders, while at the same he had stated that he opposed these bills because a friend of his desired to procure the franchise himself, and was willing to pay half a million of dollars for it.

Mr. OPDYKE—The gentleman misunderstands me. I did not charge gentlemen on the floor with being under the influence of the lobby.

Mr. GOVER—Then the gentleman's language misrepresented his meaning. He would not charge his colleague (Mr. OPDYKE) with having a personal interest in that bid of half a million of dollars, but he (Mr. GOVER) would say that he was just as willing to give the franchise to worthy men, who could not afford to pay half a million of dollars, as to those who could afford to pay that sum. He believed that the latter, while willing to give half a million dollars for the franchise now, in order to secure it, would subsequently make up more than that sum out of the people.

Mr. LAWRENCE spoke against the bills, and against giving away a franchise for which a large sum was offered. He was uncompromisingly opposed to the conversion of what may be public necessity to the exclusive promotion of individual or private advantage. The exercise of the power of the State to take private property for professedly public purposes should never be resorted to, unless the public will be greatly benefitted, not unless full and adequate compensation is given to the individuals whose property is taken.

Mr. SCHOLEFIELD spoke at length in favor of the bills, urging the great necessity of railroads for the use of the millions traveling in the City of New-York. The only persons that opposed them were a few property holders and omnibus proprietors, who desired to force the people to ride in their out-of-date vehicles. He replied to the remarks of Mr. OPDYKE respecting lobby influences, by referring him to the hosts of outsiders in the interests of the omnibus proprietors, stage-route owners, and property holders who were besieging Members not to pass these bills. He inquired whether Mr. OPDYKE had made assertions of corrupt influences being used by prominent Republicans. Did he do so from his personal knowledge of their truth, or only from rumor?

Mr. OPDYKE—I stated what rumor said, but did not charge the corrupt use of influence by prominent Republicans.

Mr. SCHOLEFIELD certainly had understood him so, and was glad to hear this explicit denial. He proceeded to describe humorously the exertions of the lobby against these bills.

Mr. TUTHILL spoke in favor of the bills and against the motion to strike them out of the report, urging their necessity. They were demanded for the public conveyance, and it was almost impossible to get along much longer without them. He regarded the talk about lobby influences as idle. That influence had been used in scores of bills for which all the members had voted. It was used on both sides for and against bills. He would not reject a bill that was wise in its provisions and demanded by public necessity, simply because some person interested in it was lobbying, as it is called, in its favor. He would not dash out the brains of a child because it had the small pox. He believed there were lobby influences at work for and against these bills, but believed also that the Railroads were demanded on the routes named in the bills, and should vote for their retention in the report and for their final establishment.

Mr. A. A. CHILDS spoke against the bills.

Mr. C. S. SPENCER said he had been opposed to the bills because he deemed it unjust to deprive the omnibus proprietors of their privileges, which would ruin them. But he now learned that the corporators in the bills had offered a liberal and honorable compensation to the proprietors of the stage routes, and if this was done he should favor the bills.

Mr. SMITH asked, and obtained leave, to present petitions numerously signed from the First Ward, in favor of these railroads. He stated that his constituents had instructed him to vote for these bills.

Mr. LAW said the members from the country find difficulty in voting on questions coming from New-York. The streets of New-York have been paid for, and the public has the right to use them for public conveyance as they see fit. The omnibus is an institution of the past, and has no prescriptive right to use the streets for carrying passengers. If the omnibus proprietors are injured, we regret it, but we must legislate for the public, not for individuals. If the New-York Common Council will not charter Railroads for the public convenience, the Legislature should. We hear much of lobby corruption and fraud, but we had heard too much of that already. It is a favorite way of defeating law here. The public will think there is no purity here. They will think the members of the Legislature are as corrupt as the festering pollution of cities. The men who come from New-York for and against the bills have a right to come, and we have no right to call such men corrupt and hold them up to scorn.

Mr. MILLER spoke in favor of the bills. Although from a remote part of the State, he had felt as all who go to New-York must feel, the necessity of railroads in that City. He declared the opposition to the bills came from the omnibus gentlemen, who were opposed to all progress.

Mr. ABBOTT said a letter had been introduced into the House and commented on by the gentleman from New-York, (OPDYKE,) addressed to him by an intimate personal friend and constituent of his, Mr. BEACH. He denounced the manner in which the letter had been obtained, and denied the right of the member to use it, but at the same time, in justice to the writer would say, that the construction attempted to be put on the letter was not justified by the facts. There was not one word in it which ought not to have been written. It was not one-half, not one-twentieth part so strong in its language in favor of action on the bills as had been the applications and exhortations addressed to him by persons interested in the defeat of the bills, and even by Mr. OPDYKE himself, to induce him not to report the bills.

Mr. RUTHERFORD said it was no use saying anything against the bill, for they would be passed by both Houses and signed by the Governor.

Mr. OPDYKE disclaimed against insinuations against the integrity of Mr. ABBOTT in his allusions to the letter, and declared that in rising he had deemed himself entirely justified.

Mr. TOMLINSON had intended to say nothing on this question, but if the assertion of his colleague (RUTHERFORD) was correct, that the bills would be passed and signed by the Governor, and that it was no use opposing them, it was time for the House to take action. He denounced those who would yield up the City of New-York and the rights of property-holders to the mercy of these railroad corporations, because they offered compensation to the omnibus proprietors as to any others. He argued against the right to run a railroad in the front of any man's property without his consent. The streets of New-York were held in trust for the people by the City. There was no more right in the Legislature to give away these franchises, than to give away the ferries from which the City derives a good share of its income. He argued at length on the merits of the question, and alluded to Mr. SPENCER's remarks in an article on the roads in the *Evening Journal*. He scorned the legislator who would guide his course by the public Press. The Press was inaccurate—the Press was unreliable. It was managed and controlled by corruption. He had seen papers in New-York wake up with a lie stamped on their very face. He had seen them swearing one against the other, and every one of them perjured by their own showing. He concluded by eloquently urging the House not to pass these bills, but to strike them out of the report.

Mr. SCHOLEFIELD replied in defence of the Press, declaring he scorned the legislator who would not be guided by the voice of the public Press.

The Speaker took the floor when the previous question was moved, but the House refused to order it.

The Speaker then spoke in favor of the bills. He had voted, always voted and should always vote for City Railroads in New-York. They were demanded by public necessity. The rich opposed them and the poor solicited them. This was the true state of the case. He was from a rural district, but had for twenty years past done more business in New-York than a tenth of her people. He knew of the subject of which he spoke. These railroads, if built, must be done by corporations. As to who were the corporators he cared not. One man was as good as another, so long as they would build and honestly operate the roads. He would give the franchise without cost. If half a million of dollars were paid for the franchise, it would go into the treasury, and relieve the rich for a year from a trifle of taxation, but the poor would be the sufferers, for the price paid for the franchise would be taken out of them in increased fare. An allusion had been made to the incorporated Stage Company. That Company, he understood, was in favor of the proposed bills.

The previous question was then ordered and at 12 o'clock the House refused to strike the bills out of the report by Yeas, 15; Nays, 66.

The report of the Grinding Committee was then agreed to.

Those voting in the affirmative on the motion to strike out were Messrs. N. A. Childs, S. S. Childs, Coit, Conkling, Cornelius, Green, Masterson, Meeks, Messerole, Moulton, Opdyke, Slocum, Stewart, Snydam and Tomlinson.

The House then, it being nearly 1 o'clock, adjourned.

Communication to the Legislature from the Commissioners of the Canal Fund.

To the Honorable the Legislature of the State of New-York:

The undersigned, Commissioners of the Canal Fund, charged by the Constitution and laws with the care, custody and supervision of the moneys belonging to that fund, and with the duty of making payments of interest and principal upon the Canal debt, in view of the prospective embarrassments of the Treasury to meet a portion of the obligations of the State, beg leave to report to your honorable body the following facts:

The "surplus revenues" of the Canals are entirely exhausted by the requirements of the 1st section of the 7th article of the Constitution to provide for the interest, and a sinking fund for the principal of the old Canal debt, and such revenues are largely insufficient for the purpose.

The only resource, therefore, for paying the interest on the new Canal debt of $12,000.000 is by taxation. This amounts to $710,000 annually. The Legislature, at its last session, imposed a half mill tax, estimated to yield $680.000, to pay the interest for the present fiscal year, leaving a deficiency of $30,000, which, with the sum of $83,517 34 advanced from the Sinking Fund for this purpose on the 1st of January, 1858, will make a deficiency at the close of the present fiscal year, on the 30th day of September next, of $113 517 34.

This advance from the Sinking Fund must be restored to it by the 1st day of July, 1860, in order to comply with the provisions of the Constitution in relation to the payment of a portion of the old Canal debt which falls due at that time.

There will be no means to pay any portion of the interest on the new debt for the next fiscal year, except such as your honorable body shall provide.

The Commissioners of the Canal Fund made a temporary loan of $200,000 on the 1st of July, 1858, to prosecute work which could not be suspended without great detriment to the public interest, payable on the 1st day of July, 1860, which there will be no means to pay unless provided by the present Legislature.

The following statement exhibits the amount necessary for the foregoing purposes:

Advance from Sinking Fund for interest on new Canal debt	$83,517 34
Interest on new debt for fiscal year, commencing Oct. 1 1858	710,000 00
Interest on new debt for fiscal year, commencing Oct. 1, 1859	710,000 00
For temporary loan,	200,000 00
Interest on advances from Sinking Fund	15 269 62
Total	$1,718,786 96
Deduct estimated avails of half-mill tax	680,000 00
Deficiency	$1,038,786 96

Whatever disposition the Legislature may see fit to make of other less sacred obligations, the undersigned deem it their duty earnestly to recommend that provision be made for the payment of the foregoing deficiency at the present session of the Legislature. Unless this is done, the interest upon the new Canal debt must remain unpaid after the 1st day of July next, and the advances upon the Sinking Fund will be unrestored on the 1st day of July, 1860. Thus the public faith will be violated and our constitutional obligations disregarded.

Deeming these considerations paramount to all others, the undersigned submit this statement, in the confident hope that the Legislature will immediately adopt measures to meet these liabilities, and thus save the State from public dishonor.

Respectfully submitted,

R. CAMPBELL, Lieutenant-Governor.
GIDEON J. TUCKER, Secretary of State.
S. E. CHURCH, Comptroller.
I. V. VANDERPOOL, Treasurer.
LYMAN TREMAIN, Attorney-General.

ALBANY, March 31, 1859.

Cheaper Justice and Speedier Settlements—The Division of the Sixth Judicial District.

To the Editor of the New-York Times:

Quite a number of letters and editorials have appeared in your and other papers, against the bill dividing the Sixth Judicial District, now before the Legislature at Albany. If you will allow a small space for the other side, I think I can show that no fair-minded man can possibly be in favor of having things stand as they are.

First—The City of New-York is divided into seven Civil Judicial Districts and eight Criminal Judicial Districts. Each Criminal Judicial District corresponds in territory with a Civil Judicial District, except the Sixth Civil District, which embraces two Criminal Districts. We have either too few Civil or too many Criminal Justices in our District.

Second—The population of our City, by the last State census, was 629,904. The population of each of the seven Districts should have been 89 986, whereas one District then had a population of 154,301. We, citizens of the Sixth District, see no fairness in taxing us for the support of a Justice for every 77,000 in the other sixth Districts, and giving us only one for 154,000. Any one who is in favor of such inequality must have a mind particularly *bizarre*.

Third—There is no other part of the State, of its population, which enjoys so few judicial privileges as this Sixth District. It has now a population of about 200,000. It is a poor county in the State that cannot boast one Justice, and yet our district is larger than any county in the State, except those in which New-York and Brooklyn are situated. It is larger than Erie County, including Buffalo. It is much larger than Monroe County, including Rochester. It is as large as the entire counties of Fulton, Hamilton, Putnam, Richmond, Rockland, Schenectady, Schuyler, Warren and Yates, all rolled into one. It is about as large as any five of the counties in the State, taken together. What would our rural friends say if they had only one Justice to every five or ten counties in the State? The Sixth Judicial District is larger than the State of California, which threatens to erect itself into an Empire. It is three or four times as large as the District of Columbia. It is as large as the States of Florida and Delaware put together. It is larger than the State of Rhode Island. Now, imagine two States like Delaware and Florida, or one State like Rhode Island or California, making an outcry because two Justices were to be appointed to attend to their litigations in place of one.

Fourth—The Sixth Judicial District extends over all that part of the City from Fourteenth to Fortieth-street, and from river to river. It is the portion most rapidly filling up. It is peculiarly the dwelling-house part of the City, and the jurisdiction of these Courts depend on residence not on business. It embraces now, in fact, about one-third of the permanent population of the City. If we must be content with one Justice, surely the other two-thirds of the City should be content with two.

Fifth—The Twentieth Ward alone, which is only one-quarter of the Sixth Judicial District, (embracing the Sixteenth, Eighteenth, Twentieth and Twenty-first Wards,) has a larger population than some other entire Judicial Districts. Is it fair that one man in the Sixth Ward should have as many judicial privileges as four men in the Twentieth Ward.

Sixth—Divide the Sixth Judicial District into two, as proposed by the bill before the Legislature, and either half will be larger than the other Judicial Districts of the City.

Seventh—The recent elections show that the Sixth Judicial District embraces nearly one-third of the voters of the City—over one-fourth. By what right are we, with one Justice, taxed to support six Justices for our neighbors.

Now, surely, no man can look at the foregoing facts and say the present system is fair.

Every fifty thousand people in our State should have a tribunal for the settlement of their small causes. Every other part of the State has that facility except New-York City, and particularly the Sixth District. The people want cheap, speedy and convenient justice. Hundreds of suitors are driven with small claims of fifty or one hundred dollars, to the Supreme Court or Superior or Common Pleas, where it takes from six months to two years to reach a trial. This calls upon hundreds of additional jurors to leave their mercantile affairs to try these small causes. Every cause tried in these higher Courts costs $100 in taxable costs alone, besides counsel fees, jury expenses and loss of time. There are over 6,000 causes now on these three calendars, the costs in which alone amount to nearly a million of dollars, to say nothing of counsel fees, jurors' time, &c. One third of these causes should have been tried in the District Court, and would have been but that it is easier for the residents of Fortieth-street or Eleventh-avenue to meet the residents of Fourteenth-street or Avenue D at the City Hall than at any place in the Sixth District.

We should have more District Courts—at least one more for this District. The cumbrous machinery—the mockery, I might say—of the General Term of the Marine Court, should be abolished, and appeals be from the District and Special Term of the Marine Courts directly to the Common Pleas. Let the jurisdiction of the Justices' Court extend to $250, as it now does; and the Marine to $500, as it now does, and no costs be allowed for any recovery under $500 in the higher courts, and no costs in the Marine Courts under $250. In addition to this, there should be a General Court for the City, in which all persons, and particularly the poor, could sue without money and without price for all sums under $10 or $20—where no lawyers nor costs should be admitted, and each party be allowed to state his own case under oath. The dispute could then be settled on the spot by the Judge. Indeed, what we want is more cheap Courts and less business in expensive ones.

In place of adding to the taxes the District Courts could all be made to support themselves. Let the new District be so arranged as to depend on the fees, and the office will not go a-begging; the fees remaining as they are. If fees are now illegally pocketed, one line in the bill to divide this district can remedy that for all the districts. If each Justice now pockets $3,000 extra from fees, one line of the new bill can save $21,000 to the City. If the Justices retain their private practice, another line in the bill can remedy this evil if evil it be. If time serving politicians are elected, (and I presume higher Courts may not be above such men's ambition,) let the people elect better, or let them be afflicted as they deserve. In fine, a bill to divide the Sixth Judicial District might be passed which would facilitate the ends of justice, save enormous taxes in the way of costs, and, in place of adding five or ten thousand dollars to our present taxes, save to our citizens hundreds of thousands of dollars every year.

Sporting Intelligence.

A misunderstanding has occurred as to the disposal which shall be made of the money received from the sale of tickets to admit spectators to the great Billiard match which is to take place week after next at Detroit. Some time since the statement was made that the surplus, after paying expenses, was to go to the Mount Vernon Fund. SEXBRITER and his friends do not agree to this. If Mr. PHELAN, say they, wishes to make such a disposition of his part of the proceeds they have no objection to his doing so; but Mr. SEXBRITER should be permitted to make whatever use he pleases of his part of the profits. It is said that it is the latter gentleman's intention first to deduct the $250 which he pays to defray PHELAN's expenses, and then hand over the balance to a charitable institution for orphans in Detroit. The difficulty is one which it would seem might easily be adjusted. In the meantime the sale of tickets has been stopped. Mr. PHELAN has already left for Detroit, with several of his friends. The second deposit of $1,500 a side was made Monday, making in all $5.000 thus far deposited. As has already been stated, the hall in which the match is to come off will seat about

Decision in Admiralty.

UNITED STATES DISTRICT COURT—April 1.

Before Judge Betts.

COLLISION—EVIDENCE.

The Northern Transportation Line vs. *The Steamship Pacific.*—This case with six other cases were tried together. They were suits brought by the owners of six barges to recover the damages occasioned to them, respectively, by a collision with the steamship, which occurred in the North River in the morning of Oct. 27, 1858. The barges were in tow of the steam-tug *Saratoga* coming directly down the river. The steam-tug had several barges lashed alongside, and lines of about 400 feet long went from her stern to the barges in question, five of which were abreast and the other two tailed on to the five. The steamship had left her anchorage near Governor's Island about 10 A. M., and here over near the New-Jersey shore and going up the river; when nearly opposite Pier No. 45, where she was going to her berth, she ported her helm and went nearly at right angles across the river, coming in collision with the barges in question.

Held by the Court—That the controlling question in the case is, at what time and place in the movement of the steamship up the river her helm was ported, and her direction and that of the tug and tow brought at right angles with each other.

That on this point the evidence is in irreconcilable disaccordance and there is no course left but to adopt the statement of one side and reject the other absolutely.

That the testimony of witness outside of the colliding vessels, who saw the transaction, supports the charges of the libels, and the libelants' testimony must be held to establish, by a strong preponderance of proof, that the collision was occasioned by inattention and fault on the part of the steamship.

Decrees for libelants in all the cases, with references to compute the damages.

For libelants, Mr. Van Santvoord. For claimants, Mr. Van Vorst and Messrs. W. Q. & W. Morton.

UNITED STATES CIRCUIT COURT—April 1.

Before Judge Betts.

The Grand Jury came this morning into Court, which was opened for their reception, with the following bills of indictment:

The United States vs. *Robert Walker*—An indictment against the boats swain of the ship *Antarctic*, for cruel and unusual punishment.

The United States vs. *Joseph O. Bradford*—An indictment against the third mate of the same vessel for the same offence.

The United States vs. *John McEnroy*—An indictment against the master of the ship *Ettowan* for the same offence.

The United States vs. *George Drew and Thomas Campbell*—An indictment for larceny committed on board the ship *Liverpool*.

The United States vs. *John H. Pa'sing*—An indictment for forgery of a voucher, by which to draw prize money.

SUPREME COURT—Special Term—April 1.

Before Justice Clerke.

Stephen B. Dillaye vs. *Emanuel B. Hart*.—The defendant is Surveyor of the Port of New-York. He is now sued for an assault and battery alleged to have been committed in Nassau street, July 28, 1858. He has interposed no answer.

The plaintiff now moves for judgment, and asks that his damages may be assessed by a Jury at the Circuit. The ground of this application is that he apprehends a political prejudice in favor of so prominent and influential a politician as the defendant would exist in the breasts of a Sheriff's Jury.

Decision reserved.

Sheldon & Brown for the plaintiff; B. Galbraith for defendant.

Before Justice Davies.

Arthur E. Abbard vs. *Julia E. Abbard*.—Referred back to same referee to take further testimony.

KINGS COUNTY CIRCUIT—March 31.

LIABILITY OF WESTERN INDORSERS.

Uriah H. Lee vs. *George Selleck et al.*—This was an action by the plaintiffs, a firm in New-York, against the defendant, George Selleck, a banker in Illinois, upon a promissory note for $3,378 75, made and dated in New-York by Benjamin Selleck, a resident of Wisconsin, but payable in Illinois, and indorsed by the defendant, George, in Illinois.

The action was commenced by attachment against the property of the defendant, the indorser.

The defence was, that the contract of indorsement being made in Illinois it must be governed by the laws of that State, and that by those laws the plaintiff must exhaust his remedy against the maker of the note by action before the indorser's liability attaches, so as to be actionable. This is provided by statute in that State. It was admitted that no process had been served upon the maker.

Mr. Justice Lott before whom the case was tried on 18th February, without a jury, gave judgment today for the defendant.

SURROGATE'S COURT.

Estate of Patrick Fogerty.—This was a final accounting by the administratrix of the estate of the deceased. It appeared that at the time of the death of the intestate he held certain leasehold premises in the City of New-York. Shortly after his death the lease expired by its own limitation, and a new lease was taken in the name of the administratrix. The creditors objected to the account as rendered, on the ground that the administratrix did not account for the proceeds of the lease, and that she had no legal right to have the lease renewed for her own benefit. On the other hand, the counsel for the administratrix contended that the whole claim, title and interest of the estate in the leasehold premises became extinct on the owner in fee becoming entitled to the possession of the premises by the expiration of the lease, and that whether the administratrix or any other person was legally competent to enter into new covenants in respect to the property, without being accountable to the estate therefor.

The Surrogate held that the administratrix was bound to account to the creditors for the value of the lease, and for the rents which had accrued less the current expenses, ground rent and repairs, &c.; that the lease when resumed was a continuation of the old lease, and was for the benefit of the estate; that the administratrix could not avail herself of her official position and use it for her own individual right and benefit, to the exclusion of the parties for whom she stood in the relation of trustee.

The Surrogate ordered the lease to be sold for the benefit of the estate, and that the administratrix should account fully for the proceeds of the sale.

Court of Appeals.

The attention of the profession is called to the fact that the first paragraph of the rule of the Court of Appeals, establishing the Calendar practice of that Court, has been modified as follows:

"No reservation will be made of any of the first thirty causes, unless on account of sickness, or an engagement elsewhere in the actual trial or argument of another cause commenced before the term of this Court, or other inevitable necessity, to be shown by affidavit. Other causes may be reserved upon reasonable cause shown; but if such reservation is not made before the day on which the cause is liable to be called, stronger grounds will be required than when the application is made at an earlier period."

GENERAL MARKETS.

New-York, Friday, April 1, 1859—6 P. M.

The reported receipts of the principal kinds of Produce, since our last, have been: 3,115 bbls. Flour, 300 bbls. and 900 bags Corn Meal, 15,881 bushels Corn, 1,060 bushels Rye, 6,000 bushels Oats, 45 pkgs. Provisions, and 10 bbls. Whisky.

ASHES—Pots continue in request, at $6; Pearls are selling slowly, at $5 87½ ₱ 100 lbs.

COFFEE—Has been in pretty good demand, today, sales having been made of 75 bags Java at 15½; 1,200 bags Maracaibo on private terms; 180 bags Laguayra at 11¾c.@12½c., and 220 bags St. Domingo, part at 10c. ₱ lb.

COTTON—Sales, to-day, comprised 2,250 bales, nearly all *in transitu*. Prices were essentially unchanged. We continue to quote lots here thus:

NEW-YORK CLASSIFICATION.	Upland	Florida	Mobile	N. O. & Tex.
Ordinary, ₱ lb...	10¼	10½	10½	10⅝
Middling, ₱ lb...	12¼	12½	12¾	12⅞
Middl'g Fair, ₱ lb.	13	13⅛	13¼	13¼

FISH—Dry Cod are heavy and languid at $3 50@$3 90 ₱ cwt. Mackerel and Herring are less sought after, and prices favor buyers.

FLOUR AND MEAL—The market for Flour is very quiet. Holders appear to be eager to sell, but they evince no disposition to reduce prices, so as to suit the principal buyers. The demand, consequently, lacks animation. The trade continue to discuss with much earnestness, and not a little bitterness, the erroneous statement of the stock of Flour here, referred to in our last. An effort has been made to ascertain the amount really here, and we have been furnished with a copy of the names of the holders and the total quantity on hand. The list embraces seventy-five firms, whose stock, as reported by each firm, amounts, in the aggregate, to 465,774 bales, including all the State, Western, Southern, and Canadian Wheat Flour in first hands, and in the hands of speculators, as well as of the principal jobbers and that Flour upon which advances have been made. The sales of State and Western have been confined to 6,000 bbls. within our revised range.

Unsound Flour, ₱ bbl	$4 20@$5 15
Superfine State	5 25@5 75
Extra State	6 20@6 70
Superfine Western	5 70@5 80

Extra Indiana and Michigan	6 25@7 40
Extra Ohio	6 60@7 50
Fancy Genesee	6 75@6 85
Extra Genesee	7 00@8 05
Low to very choice Extra Missouri	7 15@8 70

Southern Flour continues quiet at former rates; sales 1,000 bbls., in lots, at $6 15@$6 70 for mixed and straight brands, and $6 75@$9 for low fancy to very choice extra brands, ₱ bbl. Canadian is scarce, inactive and somewhat nominal. Rye Flour is selling slowly, at $3 70@$4 50 for fine to superfine, ₱ bbl. Corn Meal is in request, at $3 85 for Jersey; $4 35 for Brandywine, ₱ bbl.; and $19 50@$19 75 for the latter in puncheons.

GRAIN—The movements in all descriptions have been unimportant, the demand having been very tame. Prices are nominally unaltered. The only sales of any moment reported, were, 6,000 bushels Rye, in lots, at 88c.@91c., and 4,100 bushels State Barley, part at 72c. ₱ bushel. Mr. Wm. G. Curtiss notices the week's business in Breadstuffs thus: "There has been a very limited demand for State and Western Flour, mainly for home use, at, however, something of a reduction in prices of the common grades, which remain dull and heavy. The better qualities have been more sought after, and are steady at about the same quotations of last week. Yesterday's transactions were to a limited extent, and the market quiet. Southern Flour remains unchanged in prices. The Wheat market has continued inactive for the week past, in consequence of the firmness manifested by holders. The receipts have been very light and the supply gradually diminishing. The demand has been principally for milling, purchasers showing no disposition to supply anything beyond their present wants. The transactions yesterday were nominal, and the market unchanged. Corn remains without material change; there has been less inquiry for speculation, closing nominally at 80c.@90c. for Western Mixed, and 88c.@91c. for Southern and Jersey Yellow. Oats continue dull, with small sales at 54c.@55c. for Jersey; 56c.@57c. for State, and 58c.@62c. for Western and Canadian. Barley remains unchanged; the supply of strictly prime is moderate, whilst common and inferior is abundant and closes heavily.

PROVISIONS—Pork is freely offered at reduced prices, yet the demand is restricted. Sales have been reported of 900 barrels, in lots, at $17 60@$17 75, chiefly at $17 60@$17 65 for New Mess, here; $17 50 for do., deliverable at the option of the seller, during all this month; $17 10@$17 25 for old Mess; and $12 75 for Prime, ₱ barrel. Cut Meats are in moderate request, including Hams, at 8½c.@9½c., and Shoulders at 6½c.@7c. ₱ lb. Bacon is quiet at from 8½c.@11c. ₱ lb. Lard is depressed and lower; sales to-day 700 tcs. and bbls., in lots, at from 11c.@11½c., ₱ lb. Beef is pretty actively inquired for at irregular rates; sales to-day, 570 bbls., in lots, at $9 50@$11 25 for repacked Western Mess; $12 50@$13 25 for extra do.; $8 25@$9 50 for Country Mess; $6 50@$7 for do. Prime, ₱ bbl.; Prime Mess Beef, $17@$21 ₱ tc.; Beef Hams $15@$17 50 ₱ bbl. Cheese is in less request, partly for export, at 7c.@10½c. ₱ lb. Stock in the packing-yards of New-York and Brooklyn, April 1, 82,772 bbls. Pork and 56,622 tcs. and bbls. Beef, against 84,382 bbls. Pork and 59,078 tcs. and bbls. Beef March 1, 1859, and 28,442 bbls. Pork and 23,194 tcs. and bbls. Beef April 1, 1858.

MOLASSES—Sales to-day 100 bbls. New-Orleans at 40c.; 70 hhds. Cuba Muscovado at 28c.@30c.; 175 hhds. Clayed Cuba at 23½c.; and 50 hhds. Centrifugal Syrup at 22½c. ₱ gallon.

RICE—Sales, to-day, 100 tcs., in lots, at $3 50@$4 50 ₱ 100 lbs. Messrs. Eugene O'Sullivan & Co. have compiled the following statement of the—

SUGARS—The demand has been fair, and sales have been reported of 829 hhds., including Cuba, at 6⅜c.@7½c.; Porto Rico, at 7c.; and New-Orleans, at 6¾c.@7¾c. ₱ lb.; also, by auction, 433 hhds. New-Orleans, at $6 57@$7 75 ₱ 100 lbs.

NEW PUBLICATIONS.

Must succeed, for it is thoroughly well done.—*Hon. Geo. Bancroft.*

WE PUBLISH TO-DAY:

THE LIFE OF FREDERICK WILLIAM VON STEUBEN,

Major General in the Army of the Revolution. By Friedrich Kapp. With an Introduction by George Bancroft.

Crown 8vo. 518 pages. Price, cloth, $1 75; half calf, $3.

The life of Steuben is one of the most interesting and eventful of the many brilliant and stirring scenes of the Eighteenth Century.

Sprung from an old, noble and military family of Prussia, as a child he accompanied his father in his campaigns in the Crimea, and during his sojourn in Russia; as a boy he was present at the siege of Prague; and, as a youth, he entered the service of Frederick the Great the greatest commander of the age, and fought with distinction in the bloodiest engagements of the Seven Years' War. Taken prisoner by the Russians he spent some time at the Court of St. Petersburg, and when set at liberty by Peter III., he remained, until the end of the war, attached to the personal staff of the great King. The calm which succeeded the stormy events of his youth was not destined to be everlasting. As soon as prospects of fame and active exertions were opened to him at Versailles, he threw up his agreeable but inactive appointment at home and hastened to America, to devote his military knowledge and experience to the conquest of American liberties and to fight under George Washington for the independence of the United States. His efforts were crowned with success; and, after the termination of the war, Steuben finally retired into private life, to end a career devoted to the public good, in honorable but unassuming poverty, in a rough Log-house in the back woods.

From the Life of Steuben, p. 38.

Prague and Kunersdorf, Petersburg and Berlin, Versailles and Philadelphia, Yorktown and New York are the landmarks of this existence, which, however checkered and beset with difficulties, has left brilliant traces behind it, and justly deserves to be added to the records of American history, so that, from a solitary example, the student may learn what efforts and sacrifices were necessary to found and protect the state of things in the enjoyment of which the American nation lives happily and undisturbed.

From Introduct on, by the Hon. George Bancroft

The memory of Steuben has many claims upon the present generation. To the cause of our country in the times of its distress, he, at the sacrifice of a secure career, devoted the experience and skill which had been the fruit of long years of service under the greatest master of the art of war of that day. He rendered the inestimable benefit of introducing a better rule into the discipline of the American army, and stricter accountability in the distribution of military stores. Reserved under our flag with implicit fidelity, with indefatigable industry, and a courage that shrank from no danger. His presence was important both in the camp and on the field of battle; from the huts of Valley Forge to Yorktown, and he remained with us till his death.

In a letter to the author Mr. Bancroft writes: "I have read your life of Steuben with admiration and instruction. * * * Your book must succeed, for it is thoroughly well done, and is deeply interesting, and a most valuable and now necessary contribution to the history of our revolution."

A NEW METHODIST JOURNAL.

The recently established LAYMAN'S ADVOCATE, in consequence of its unprecedented success has been greatly enlarged. It will in future (until the General Conference of 1860) be published under the title of
THE METHODIST.

This Journal, as far as practicable, will represent the Interests of *all the branches* of the great Methodist family. But it will devote itself, more particularly to the questions of reform now agitating the Methodist Episcopal Church. It will specially advocate *Lay representation*, (not coöperation,) *indefinite extension of the time of ministerial services* and will give to the Church a *new platform on the subject of Slavery.*

It will be open to such full and free discussion as no Official Journal *legitimately can be.*

In a peculiar sense,—without touching upon the rights of any administration paper,—it will aim to be the organ of the

METHODIST PEOPLE.

Published monthly, by WM. B. BARBER, at No. 54 Greenwich-st., New-York. Price $1, (until General Conference.)

HYATT'S PATENT LIGHTS.
A CARD HAVING BEEN ISSUED
TO THE PUBLIC
By parties who frankly confess that they do not pay me for my invention. I avail myself of this opportunity to advertize the names of those who do. The following persons, only, are licensed under my patents in this City:
George R. Jackson & Co.
J. B. & W. W. Cornell & Co.
S. B. Althause & Co.
Ingalls & Case.
Theodore Hyatt.
The law is, that a person who purchases or uses a patented article is equally liable for infringement with the maker of it. The "makers" having fairly notified the "users" of their intention not to pay, the "users" have only themselves to blame if I collect my tariff of them—as I shall certainly do. THADDEUS HYATT.

CAUTION.—TO WATCH DEALERS AND JEWELERS.—New-York, March, 1859.—I. & M. T. LEVITT, London, England, and No. 19 Maiden-lane, New-York, chronometer and watch manufacturers, hereby inform the trade that certain of the plain watches and movements of their own make, bearing their names and that of Morris Tobias, No. 31 Minories, London imported into this country previously to the establishment of their agency, No. 19 Maiden-lane, under the management of J. B. BRADBURY, have been jeweled in this City in aqua marine stones, contrary to the principles on which their fine movements and first-class watches have heretofore been constructed, such alterations being not alone injurious to the durability of the watches by reason of the softness of the aqua marines, but calculated to impair the faith of purchasers of these goods whose reliance has been uniformly placed on their quality. In order therefore that there may be no mistaking the genuine movements, purchasers will find on examination that all watches and movements finished at their manufactory in London, England, are jeweled in Rubies and Chrysolites only, and for future protection the certificate which accompanies each watch or movement will be countersigned by their sole agent. J. B. BRADBURY.

NEWS OF THE DAY.

The dispatches of Minister LAMAR to the State Department, corroborated by those received at the British Legation, announce the ratification of one of the Ouseley Treaties with Nicaragua, and at the same time explain the cause of the failure to ratify the Cass-Irisarri Treaty. The two instruments were originally precisely alike, but Sir WM. GORE OUSELEY, having discretionary power, consented to a slight modification in accordance with the suggestion of the Nicaragua Government. General LAMAR, on the contrary, was trammeled by definite instructions, which he could not exceed. At last advices the Ouseley Treaty providing for the relinquishment of the Mosquito Protectorate, was under consideration. There appears to be very little doubt that Great Britain both desired and urged the ratification of our Treaty.

Our dispute with Paraguay seems to be assuming a much more formidable aspect than was anticipated, judging from Commissioner BOWLIN'S dispatches to the State Department. He writes that the sympathies of all the South American States are in favor of Paraguay, in which case LOPEZ will probably be emboldened to make a desperate resistance to our demands. Mr. BOWLIN, however, still expresses a hope that matters will be amicably arranged.

A telegram from Washington, received yesterday, reports that the Postmaster-General has concluded an arrangement with Mr. VANDERBILT for the transportation of the United States mails between New-York and Southampton from April until November. Steamers are to leave on alternate Saturdays from New-York, and on Wednesdays from the other side. The compensation is to be the sea and inland postages.

The continued delay of the arrival of the *Curacoa*, with Lord LYONS, the new British Minister, begins to excite some apprehensions for her safety. She is known, however, to be a very slow vessel, and it is hardly time yet to indulge in any fears of disaster.

There seems to be very little prospect of getting through with one half of the terrible accumulation of business at present before the Legislature in the short time yet remaining before the adjournment. The Speaker of the Assembly announced yesterday that there were then one hundred and twenty-eight bills ready for a third reading, and that the number would immediately be swelled to the vicinity of two hundred. He desired the House to understand that if they continued making special orders to the delay of these measures, they could not be acted upon by the Senate, and therefore would be lost. The bill remodeling the Tax and Assessment law in this City was passed. It abolishes the offices of Ward Assessors and Commissioners of Taxes and Assessments as at present existing, and creates instead three Commissioners to be appointed by the Comptroller, and to hold office five years. The bill to confer additional powers upon the Fire Commissioners of this City was laid on the table for the present. The bill to prevent the erection of unsafe buildings was also laid on the table. The Grinding Committee reported a number of bills for action, among them those providing for the Seventh-avenue, the Fourteenth-street and the Avenue D railroads. Mr. OPDYKE moved to strike these bills from the report, and made a speech in support of his motion. A long debate took place, which continued until 12 o'clock at night, at which time the House refused to strike the bills from the report. In the Senate a bill was reported from the Finance Committee authorizing a loan of $2,500,000, to pay the floating debt. It was ordered to a third reading. The bill to enlarge the boundaries of the Central Park was passed. The bill to protect the liberty of witnesses was debated, but without any action. The Temperance bills were further postponed until Wednesday next. A long skirmish took place on the bill to close the canal locks on Sundays.

Pursuant to a call of ten members of the Board of Aldermen, addressed to the President, a special meeting of that body was held yesterday afternoon, to take action with reference to proposed legislation at Albany. Thirteen members were present. A protest was adopted against the passage of the bill now before the Legislature to amend the Charter and remodel the City Government, and a resolution was passed which provides for the appointment of a Committee of eight to proceed to Albany to lobby against the measure. Another resolution requests the Board of Councilmen to concur in the action of the Aldermen, and to appoint a similar Committee. It was also ordered that, with the approbation of the Councilmen, the President be authorized to employ counsel to represent the Committee before the Legislature. No other business was done.

The entire amount of City taxes collected during the past month was but $73,103 35.

The Junior Exhibition of the New-York University took place yesterday morning. The Webster Prize was awarded to GEO. D. BAKER of this City.

In the United States Circuit Court, yesterday, the Grand Jury came into Court with several indictments against officers of merchant ships for maltreatment of sailors. An indictment was also presented against JOHN H. PALSING, for forgery of a voucher to draw prize-money.

The suit of STEPHEN B. DILLATE *vs.* EMANUEL B. HART, for assault and battery, was up before the Supreme Court yesterday. The defendant made no defence, and the plaintiff asked that damages might be awarded by a Jury at Circuit, on the ground that there would be a political prejudice in favor of the defendant in the minds of a Sheriff's Jury. No decision was given by Judge CLERKE.

No report has yet been made by Dr. DOREMUS, of the result of his analysis in the case of the Fourteenth-street poisonings, and consequently no verdict has been rendered by the Jury. It is not probable that Dr. DOREMUS will be able to make his report before next week.

Yesterday 2,250 bales Cotton, nearly all *in transitu*, were sold at former rates. The Breadstuff trade was quite dull. Pork and Lard were depressed and lower. Beef was in demand, as were also Coffee, Molasses, Sugars, Tobacco, Hides, Leather, and Resin, at unchanged prices. The movements in other branches of trade were restricted.

ANNEXATION DECLINED.—We have been for some time in doubt whether we should or should not accept the offer of marriage, made to us in anticipation of the coming Leap-year, by our lovely neighbor of Canada. The recent verdict of a Canadian Grand Jury, in the case of the railway massacre on the Great Western line of Canada, would seem to settle the question for us, and we are reluctantly compelled to decline the hand so tenderly proffered to us.

The Grand Jury aforesaid, after finding that the Railway Company had contented themselves with putting up a shabby and unsafe embankment of gravel in a dangerous part of the road, and with inadequately ballasting that very important section of the line on which the accident occurred, go on to protest that the Company had done all that could be expected of them, and should be exonerated from all blame! We regret to say that the materials of which such a Grand Jury must have been composed already abound among ourselves, and that we cannot possibly afford to add to their numbers. We must, therefore, leave our Canadian friends to slaughter each other, and settle their own squabbles in their own way, without assuming any responsibility for their proceedings.

The Canal Fund and the Credit of the State.

On Thursday the Commissioners of the Canal Fund, viz, the Lieutenant-Governor, Secretary of State, Comptroller, Treasurer and Attorney-General, startled the Senate by a communication calling attention to the fact that if the Legislature would preserve the State from dishonor, arrangements must be made before the close of the present session to raise more than a million of dollars. The demand fell upon the Senate like a thunderbolt. Honorable gentlemen indeed could hardly be ignorant that it was impending, and it reflects little credit upon them that they were apparently willing to blink the question of meeting the public obligations, and to adjourn without assuming the disagreeable responsibility thus brought home to them. The items which go to make up the required sum are as follows:

Advanced from sinking fund for interest on new Canal debt	$83,517 34
Interest on new debt for fiscal year commencing Oct. 1, 1858	710,000 00
Interest on new debt for fiscal year commencing Oct. 1, 1859	710 000 00
For temporary loan	200,000 00
Interest on advances from sinking fund	15,269 62
Total	$1,718 786 96
Deduct estimated avails of half mill tax	630,000 00
Deficiency	$1,038 786 96

Although one Senator suggested that no legislation was necessary, for the reason that the amount needed could be borrowed from the sinking fund, to be repaid hereafter, there would seem to be little room for difference of opinion as to the course proper to be pursued. This debt is one which should be paid, and paid within the year. Let the sum be raised by taxation. The policy of making a new debt to pay an old one is ever of more than questionable expediency. True, the people are not fond of being taxed; but who shall live to see the day when their tastes in this respect will be changed? It will require both honesty and courage in the Legislature to face this duty; but those are qualities which public men should never hesitate to exercise. Debts are incurred to be paid. The Commissioners of the Canal Fund have performed an important duty, and it remains for the Legislature to do likewise. Surely no representative of the people can be willing that the public faith should be violated and the State permitted to incur dishonor. If any such persons are to be found at Albany now, let their names be exposed and registered by a vote on this question. The State of New-York has never yet incurred the shadow of disgrace in her public transactions with her creditors, and must not be suffered to do so now. Our neighbors of Pennsylvania, whose conduct of nearly twenty years ago gave a blow to American credit and American reputation abroad from which they have never fully recovered, has justly exposed herself to the scorn of the world by a pretended *settlement* of her liabilities, under which those who have long waited upon her returning honesty are to be put off with a loss of nearly *twenty per cent.* upon the principal and interest of their claims. The Parisian journals are at this moment advising Mr. BARNUM to vary his lectures on humbug at London by a specific account of "Brother Jonathan's ingenuity in emptying the pockets of John Bull," with illustrations borrowed from Governor PACKER'S elaborate laudation in his Message to the Legislature, of that honorable "Pennsylvania whose engagements have always been fulfilled with a loyalty and good faith worthy of universal imitation!"

New-York must separate herself decisively, in the minutest transactions, from any participation in this peculiar Pennsylvanian theory of "loyalty and good faith." This debt we owe under the action of the Canal Commissioners must not be left to any theoretical chances, but paid in full and from the pockets of the people for whom it has been incurred.

The Mayor and the Aldermen.

Mayor TIEMANN has put the responsibility of the shameful continuance in office of Mr. City Inspector MORTON upon the proper persons, by his letter which we to-day publish, returning his nomination of ELIJAH F. PURDY to the *Board of Aldermen* for their action.

After dallying with the Mayor's nomination of Dr. FOSTER from the 31st of December up to the middle of March, this extraordinary body of perfectly irresponsible public functionaries made that nomination a pretext for refusing to act upon the Mayor's subsequent nomination of Mr. PURDY. They declined to act upon the nomination of Dr. FOSTER, and they ignored the nomination of Mr. PURDY for one and the same reason, because they were in the interest, not to say directly in the pay of the incompetent and unprincipled person who now clings to this most important office in the face of the law, of all constituted authority, of common decency, and of the plainest dictates of public duty. In the whole shameless and disgraceful history of our municipal administration, it would be hard to find a case of misconduct more shameless and disgraceful than this. But it overcomes our patient public "like a Summer's cloud" without their "special wonder;" and nothing apparently but a Summer's thunder-cloud of pestilence and death, breaking over our neglected streets, over the filthy reservoirs of disease, and the secret mines of pollution which exist among us by virtue of the general supineness of the many and the particular rascality of the few, will ever rouse the people of New-York to deal with this matter as it deserves.

Mayor TIEMANN sets forth in the clearest manner the utterly unjustifiable conduct of the Board of Aldermen in regard to these nominations. He asserts, with an energy and spirit which do him credit, the claims of his own authority, and whatever may be the issue of the question, he has, at least, cleared himself of all complicity in the infamous state of things under which we at present labor. To expect that the man MORTON will cease to squat, harpy-like, upon the health and order of the City, till he is driven from his prey, is of course absurd. To expect that the Aldermen will do their duty in the premises, unless they are hired to do so, is hardly less preposterous. And nothing certainly is less warranted by experience than the expectation that any number of the thousands whose interests, whose comfort, and whose very lives are jeopardized by the actual condition of our Street Inspectorship, will take any effectual steps towards asserting their rights, or defending their homes. The only thing upon which we can look with anything like satisfaction in the dismal spectacle before us, is the prospect that whatever pestilence may invade our City, in consequence of our neglect of the first principles of sanitary and municipal law, will assuredly begin its ravages with the Board of Aldermen. The personal habits and associations of that illustrious *corps* of functionaries, are such as to warrant this cheerful anticipation. What the Five Points used to be in our municipal economy, the City Hall is fast becoming.

Sharp Practice at the Criminal Bar.

An incident occurred at the last act in the Stephens' tragedy yesterday, which brings forward so prominently once more the peculiar style of "practice" to which Mr. ASHMEAD resorts in his defence of prisoners, that we cannot help commenting upon it. Some of our readers may remember that in the Cancemi case this gentleman suggested the continuing of the trial with eleven jurors, and that he signed a stipulation binding himself as counsel for the prisoner to abide by this arrangement. They may also remember that he immediately afterwards repudiated the said stipulation, refused to be bound by it, and went up to the Court of Appeals. His justification in this strange proceeding was the necessity of the case; or in other words that when a ruffian who has murdered a policeman hires an American gentleman for one or two hundred dollars to secure to him all his legal rights,—that gentleman, so long as he is laboring in this service, ceases to be amenable to the ordinary rules of honor and good faith, but may fairly resort to any species of perfidy which promises most advantage to the prisoner.

That he was serious in putting forward this justification, Mr. ASHMEAD has endeavored to show in the Stephens case. He urged on the Court, in opposition to the District-Attorney, the propriety of allowing the Jury to separate every evening. He carried his point. The prisoner is no sooner convicted than he moves for a new trial on the ground that his own motion ought not to have been granted, and that the Jury ought not to have been allowed to go to their homes at night. With every disposition to make allowances for the desperation which seems to characterize this gentleman whenever he is engaged in a murder trial, we cannot avoid saying that a course of this kind is neither acute, nor astute, nor even so much as merely "smart." It is something which deserves a far severer name; a name which we leave it to the bar itself to select, for on the bar, after the individual, falls the shame of this proceeding. It is really due to the public that that body should adopt some mode of testifying its opinion of a line of professional conduct, which sets at nought every principle on which civilized society is founded, and reduces a solemn, legal controversy from a contest of skill and talent, to a competition in knavish tricks. We say this as much for Mr. ASHMEAD'S sake as for that of his colleagues. That advocate evidently needs to be protected against himself, and we know no way of saving him, so simple and effectual, as a little "discipline" at the hands of his brethren.

We have neither time nor space for a discussion on professional ethics; but we must warn those whom it may concern, that the time has gone by, if, indeed, it ever existed, when society would tolerate a profession in the exercise of which honor, honesty, and good faith can be openly repudiated. This is not the age, nor New-York the place, bad as we are, in which a man can be allowed to call in the tricks and dodges of a thimble-rigger to aid in the solemn administration of public justice.

The Century of Women.

An ancient German legend, quoted by FLORENCE NIGHTINGALE, in her admirable account of the Kaiserswerth Hospital for Nurses, long years before the Crimean war had tried her noble nature and made her name immortal, speaks of the nineteenth century as the destined "Century of Women." In this happy age, womanhood was to rule the world, and woman setting herself to man, "like perfect music unto noble words," was to subdue all the discords of the earth. Up to this time the prophecy has received many confirmations. Never before has woman played so great a part for good and ill in the world's affairs as during the last fifty years. Our prisons and our poor bless the names of Mrs. FRY and Miss DIX, with their myriad sisters of mercy. A woman endears monarchy to the rising republicanism of Great Britain by her virtues and her wisdom. Three European thrones have been filled within the century by women. "Women's rights" have invaded the courts of law, the schools of medicine, the sacred desk itself. We are indeed apparently upon the very verge of a general *gynocracy* in authorship and in actual life.

The foreign policy of the United States, so far as the United States have had any foreign policy for the last two years, has been chiefly directed, as our readers know, by a woman—an accomplished, high-minded and honorable lady, now threatened, as we regret to see, with the wrath of the President and the abuse of his confidential organ, for doing in Nicaragua precisely what the President has from the first encouraged her to do.

And it now appears that the most dangerous enemy to our policy in Mexico is also a woman. The wife of Mr. OTWAY, the English Minister at Mexico, a Spanish lady of character and ability, is in such relations with Madame MIRAMON as have determined her to make the English Legation perfectly subservient to the wishes and the views of M. DE GABRIAC, the French Envoy, and of the Church Party. Her success has so far been brilliant and formidable. How can Mr. BUCHANAN and Mr. MCLANE, his new representative, hope to resist such an influence? All the Bourbons in the world would not give our bachelor President half so much trouble as he will surely encounter in the attempt to match his celibate and vacillating will against the single and indomitable purpose of a Spanish lady in this the "century of women."

THE WHARF INTERESTS OF NEW-YORK.—What is to be done with our wharves? The session of the Legislature is fast waning; and New-York waits with natural anxiety to know whether her wharf-owners are to be driven by a senseless adherence to an antiquated tariff into abandoning all notion of improving the condition of our wharves, or whether justice is to be done to this species of property, and to the great interests dependent upon its prosperity. It is past debate that something must be done to ensure the rights of our wharf-owners and the safety of the wharves themselves. That something the Legislature has it in its power to do. It must be done and done at once.

The Season of "Strikes."

One of the earliest, and not the least reliable, indications of increased activity in business on this side of the Atlantic is the general uprising of mechanics to quarrel with their bread and butter in the attempt to obtain more butter to their bread. As a usual thing, mechanical industry of all kinds finds its most active market in these Northern cities at the opening of the Spring. Houses are to be built and finished; gardens are to be made; buildings are to be painted. And it is, therefore, in the Spring time of the year that carpenters, masons, painters, gardeners and others feel their importance, "come out," with other green things, and demand higher wages. Their several proceedings are regulated, too, by the Seasons, since it is at various periods of the Spring that each different occupation is called into active service. It might be said, indeed, of the carpenters and masons, who are usually the first fruit of the season in the way of mass-meetings, and so forth, that they appear with the asparagus; the plasterers and painters generally follow with the peas. This year, the piano-forte makers have formed literally a striking exception to the ordinary rule, and have been the first to "strike"—and they have done this with an almost endless variety of meetings. They have, moreover, persisted in occupying the morning papers with the diapason of their woes until the subject has become a positive bore. They have been duly followed by the inevitable builders, and we suppose that more of the trades will shortly follow. The fact, if it does no more, shows the present prosperity of the City, which is, at least, cheering. There is evidently more work for the "hands" than there are hands for the work.

Similar strikes have frequently occurred in Europe, and almost invariably to the disadvantage of the employed; because in Europe this class is so numerous as always to afford a supply to the labor market at the current rates of the day. Here, such combinations have usually resulted in the temporary success of the claimants; because, in this country, the supply of labor never exceeds the demand, in prosperous times, which are the only periods when labor permits itself to be rampant. Looking, then, at the question from the American point of view, we cannot conceive that the mechanics who demand higher wages, when their labor is most required, are wrong in so doing, or merit any blame when they adopt a peaceable course to obtain better rates of compensation. Employers rarely keep their workmen on pay when there is nothing for them to do; nor do they scruple, at such seasons, to offer the lowest rates that the want of employment will induce men to accept. When therefore the opposite spoke of the wheel comes uppermost, and the employed have it in their power to command terms, we see no reason why they should not avail themselves of the same law of supply and demand which governs the operations of the employers with the outside public, and which, indeed, rules business operations of every class and character.

The only trouble about these "strikers" is, that they frequently run into the error of interfering with the very law which sustains their own demands, and by dictating terms to their brother-workmen, place themselves out of the pale of reason and of right. When A and B determine that they will not help to build, or paint, or plaster a house at so much per day, those resolute letters of the alphabet imagine that they have the right to prevent C from so helping at the rate which he, individually, is willing to accept for his labor; and in order the more effectually to keep C from doing as he believes to be the best in the premises they threaten him with all sorts of personal violence in the event of his consulting his own inclination in preference to theirs. We believe that, so far, this season, the strikers have not come to this pass, which is usually the result of long-continued obstinacy on the part of employers. We can, therefore, still recommend to the parties who have made or are meditating "strikes," to let this branch of the ordinary programme alone this year. The community will have no sympathy with such action, nor will the law sustain it. It might also be well to suggest to the discontented employed the propriety of looking well before they leap; in other words, of first counting the cost of obstinate idleness. Once having estimated this and come to the conclusion that higher wages six weeks or more hence, will compensate for refusing to work at all during that period, the risk might perhaps be a fair one to take. It would be well, however, to be sure of this beforehand.

Amusements.

BURTON'S THEATRE.—This establishment will open on Monday next with a good company under the management of Miss DAVENPORT. A new version of SCRIBE'S "Czarina" is the attraction.

MLLE. LAMOUREUX.—This distinguished artist has recently returned from Havana and Matanzas where her triumphs have been unequivocal. She bears on her fingers some of the brilliant recognitions showered on her by young Cuba. It was hoped by the friends of Terpsichore that Mlle. LAMOUREUX would once more resume her position in this City as a leading star, but the lady, we are sorry to say, leaves today by the *Arago*. It will be deeply regretted by her many friends.

CONNECTICUT ELECTION.—The annual election in Connecticut for State officers, members of Congress and of the Legislature takes place on Monday next. Unusual interest is felt in the result, not only in that State, but throughout the Union, on account of its supposed bearing upon the national canvass of 1860. The following are the leading nominations:

	Democrat.	Republican.
Governor	J. T. Pratt	W. A. Buckingham
Lt. Governor	R. H. Winslow	J. Catlin.

The Gibson and Holmes Disaster on the Ohio River—Forty-two Lives Lost.

From the Cincinnati Gazette, March 30.

On Monday evening last, about 8 o'clock, the steamers *Nathaniel Holmes*, bound from Pittsburg for St. Louis, and the *David Gibson*, from New-Orleans for Cincinnati, came in collision a short distance below Petersburgh, Ky., and two miles above, and in sight of Aurora, with such force as to sink the former instantly, and the latter in a few minutes.

The night was dark, and the wind was blowing violently when the collision occurred, and it is supposed that smoke obscured the lights, so that neither pilot saw the approaching boat, until too near to prevent the accident. The *Holmes* was cut into pieces, and sunk instantly. The *Gibson* swung around, and was run for the shore, but before reaching it she sunk, the cabin floating off.

There was a small trading boat, named *Annie Laurie*, No. 5, near by, but the owner refused to let any one have the use of a skiff to go to the assistance of the sufferers. He armed himself with a hatchet, and his wife with a bowie-knife, and the pair threatened to kill any one who should touch the skiff. WM. NICHOLSON is the name of this man.

No full list of the killed could be obtained, but the number is supposed to be *forty-two*. From Mr. LAMONT, clerk of the *Holmes*, we obtained the following list of the lost from off that boat: A Frenchman named Louis Dupon, wife and three children; reshipped from the *Clara Dean* at Cincinnati; Henry Welch, wife and three children, of Wheeling, Va.; a family of seven shipped at Wheeling, names unknown, consisting of a man, wife, two daughters and son; David Gillien, of Allegheny, Penn.; John Mulligan, of Rush Township, Tuscarawas County, Ohio; John Yance, from Wheeling, Va.; Samuel Owarth, wife and child, from Parkersburgh for Madison, Ind.; James Caldwell, engineer; Hiram F. Griffith and sister, Emma Ann Griffith, from Bridgeport, Ohio, for Burlington, Iowa; Herman Nold, wife and three children, Pittsburgh; a Frenchman, shipped at Cincinnati, name unknown; a child, name unknown, was found yesterday at the foot of Laughrey Island; Thos. McDonald, —— Logan and John Evans, deck hands, and a colored fireman; —— Thomson, and two daughters, from Cincinnati; and —— Williams, cabin boy. Four others are missing, but are supposed to have come up on the Kentucky to this city. Total, 41 killed and 4 missing, so far as yet known.

One youth, named ROBERT WELCH, whose father, mother, and three sisters were lost, sprang into the river, and seizing a fourth sister aged five years, swam to shore. Another lady, Mrs. DANIEL BISHARD, of Cambridge, Ohio, forgot her child until after she left the wreck. Captain KENNEDY found the little girl alive, lying between two mattresses, close up to the hurricane roof.

The hulls of both steamers are lying in deep water above Aurora, entirely out of sight.

A large meeting of the citizens of Aurora, was held yesterday afternoon, Mayor TUBBY presiding, at which a Committee of one from each Ward was appointed, to ascertain the names of all those persons wrecked by the disaster of the *Holmes* and *Gibson*, and what means they needed to take them to their various places of destination, and to report the same to the Council, to meet last night.

The total loss of both boats and cargoes will not fall short of $500,000, with an insurance on all of about $175,000.

LETTER FROM SENATOR DOUGLAS.—The Hartford *Post* publishes a letter from Senator DOUGLAS, in reply to one from the editor, from which we make the following extracts:

"I sincerely regret that circumstances over which I have no control have rendered it impossible for me to visit Connecticut during your present canvass. Your election this Spring excites unusual interest, and involves important consequences. Upon it may depend the organization of the next Congress, and the ascendency of the Democratic Party in the House, in the election of Speaker and the appointment of Committees. The Democratic Party is the only political organization which can preserve the peace and harmony of the Union. * * *

The integrity and ascendency of the Democratic Party can only be maintained by an explicit and unequivocal recognition of the fundamental principles of *popular sovereignty and non-intervention by Congress with Slavery in the Territories*, as well as in the States, as it was explained and understood in the great contest of 1854 and 1856. I understand that the Democracy of Connecticut are now fighting the battle on this distinct issue, so far as federal politics are involved in the contest, and most heartily shall I rejoice in your success."

The Reported Cession of the Feejee Islands.

WASHINGTON, Wednesday, March 30.

To the Editors of the National Intelligencer:

GENTLEMEN: I see by your paper of this morning that the English Government have or are about to take possession of the Feejee Islands. The inclosed papers will show that the chief of Ban, or TUI VITI, was not regarded by the English Missionary, the Rev. Mr. CALVERT, or by TUI LAVUKA, the chief of Ovalau, as King of the Feejean Archipelago; and therefore he had no right to cede the islands to England. I held the chief of Ban responsible for the payment of money due American citizens from those islands over which he did not claim sovereignty, because he was the greatest robber, and had invited King GEORGE, of the Tonga Islands, to join him in subduing all Feejee, in order that the island might be under the control of one chief; but as they were not successful, he (TUI VITI) cannot surrender the islands to any nation without the consent of all the chief men of the islands.

Respectfully, &c. E. B. BOUTWELL,
Commander U. S. Navy.

PERSONAL.

In Oregon, lately, one Mr. Elijah Dodson, of Yamhill County, petitioned the Legislature for a divorce from his wife, but after the bill granting it had passed one House, he addressed a memorial to the other, begging a stay of proceedings after the following fashion: "After my best respects, I wish to inform you that my old woman has returned and I have found her all right, and if our petition has not been taken up, be so good as not to take it up, and not proceed any further without my order."

The Rev. Geo. W. Wood, one of the Secretaries of the American Board of Missions, writes to the *Evangelist* to contradict certain statements to the effect that the Board winks at the sin of polygamy in heathen lands. Mr. Wood says there is, so far as known to the officers of the Board, and in their belief, no man with more than one wife, or woman with more than one husband, in any Church connected with any Mission of the American Board.

The Rev. Horace N. Bushnell recently resigned his charge at Hartford, on account of ill health. He has been settled over the North Congregational Church in that city for 26 years. His parishioners met a day or two ago, refused to accept his resignation, granted him five years' leave of absence, and elected the Rev. C. D. Helmer to supply the pulpit.

The Honolulu *Friend* says, that Captain S. G. Moore, late master of the *Morning Star*, is contemplating the publication of a volume embracing incidents of his twenty years of sea-life, including the history of the first trips of the *Morning Star* to Marquesas and Micronesia.

A New-Hampshire correspondent of the Boston *Journal* says, that few if any of the people of that region are intending to leave for the West the present season, and none for the gold regions. They will wait and see how the deserters of Iowa, Wisconsin, Minnesota, Kansas, &c., succeed at Pike's Peak, before they leave.

The Rev. Edward T. Hiscox, D. D., of this City, has prepared a manual of reference respecting the doctrines, discipline, officers, ordinances, and every subject connected with the organization and growth of the Baptist Church.

Among the candidates named for the Provostship of the University of Pennsylvania is the Rev. J. A. Spencer, D. D., of New-York, who receives a hearty indorsement from the Philadelphia *Press*.

SPRING ANNOUNCEMENT
TO
PARENTS.
IMMENSE VARIETY IN BOYS' CLOTHING.
Having established, by the excellence, variety and moderate prices of our Boys' Clothing an
EXTENSIVE POPULAR TRADE
in this branch of the clothing business, we now offer for the approval of parents a stock of fashionable Spring attire for
BOYS OF ALL AGES,
which embraces a greater number of new and seasonable Paris and domestic styles than has heretofore been presented by any firm engaged in the general Clothing trade. We solicit attention to the variety in shapes, trimmings, materials, colors and sizes, which distinguishes our assortments from those of other Clothing houses; but above all,
LOOK AT THE PRICES
affixed to the articles, and then say if they are not by many per cent the
CHEAPEST OF THE SEASON.
Fancy Suits for small boys, School suits, Dress Suits, Office Suits, Cadet Suits, Spring Raglans, Spring Overcoats, &c., make up (in part) the diversified stock. The selection for Boys' Clothing is apart from those assigned to Gentlemen's clothing, and great attention is bestowed upon this branch. Parents bringing their boys, and boys coming alone, will receive equally prompt attention. In the Boys' Department, as in the Men's,
ONE PRICE AND NO DEVIATION,
is the fixed, irrevocable rule. Boys can have their clothes made to measure, at moderate prices in the Juvenile Custom Department. ROGERS & RAYMOND.

Catarrh! Catarrh! Catarrh!
CATARRH, WHAT IS IT? HOW CURED?
Thousands of persons suffer all sorts of annoyance from Catarrh. Most people know what its inconvenience and results are, yet but few know how it can be cured. It is simply a chronic irritation and after enlargement of follicles and consequent thickening of the mucous membrane, lining the nasal cavities, frontal sinuses and posterior nares and sometimes extending into the throat and lungs. From this results tightness and often vertigo of the head obstructed nose or profuse flow of mucus, loss of smell, nasal voice, and often impaired hearing and taste. The old school remedies have never been able to do anything for it. Nasal injections and inhalations are as painful and expensive as they are generally worthless; yet HUMPHREYS' CATARRH SPECIFIC, a simple SUGAR PILL taken two or three times per day, promptly relieves the milder cases, cures at once all colds in the head, and radically cures by perseverance the most obstinate cases, as is proved by the experience of hundreds.

APPLETON'S NEW AMERICAN CYCLOPÆDIA.
NOW OUT,
VOL. V.

Although but a limited field has as yet been canvassed for subscribers, the publishers of the

NEW AMERICAN CYCLOPÆDIA

are required to print 12,000 copies of each volume, to supply the existing demand. Even at the rate at which subscribers' names are now coming in, the work will soon have attained a circulation of at least 30,000—an enormous success for a work of such magnitude and cost, and one which establishes it prominently in the category of famous literary successes. Without the addition of one subscriber to the present list, (12,000) it will thus be seen that the American public are cheerfully paying six hundred thousand dollars for a great National Cyclopædia—a fact which speaks eloquently for intellectual progress in the United States, and which becomes the more striking when we reflect that the work is but one third completed, and not one-fourth of the country canvassed.

It is hoped that every man and woman, who has at heart the interests of American Literature, will peruse the following list of Contributors to the NEW AMERICAN CYCLOPÆDIA, in order to assure themselves that every section of the United States is represented in the work, with all its talent, and all its scholarship, and that there is scarcely a name of note (in whatsoever department of human knowledge) in the whole country, that the editors have not enrolled in their powerful force of collaborators. This will, of course appear the more plainly as the work proceeds, and each successive volume is laid before the public, with its 2,500 fresh and able articles.

PRICE OF THE
AMERICAN CYCLOPÆDIA

In extra Cloth, per vol., $3; in Library Leather, $3 50 in half Turkey Morocco, $4; in half Russia, $4 50; in full Morocco, $5 50.

TO AGENTS.

There are many profitable fields of labor for the enterprising agent to canvass, in various parts of the United States, which may be obtained on application to the Publishers.

Any one desirous of examining the work can have any one of the five volumes now ready sent by mail, postpaid, by remitting to the Publishers $3.

INTERESTING
TO
REAL ESTATE OWNERS.
IT IS THE PURPOSE OF
JERVIS' INFORMATION EXCHANGE

To keep, eventually, a complete register of all real estate in the market, and to improve greatly on the present system of real estate brokerage, by bringing the principals, if required, immediately face to face, and not keep them apart as is too often the case at present. This, with other reforms much needed, (as every property owner knows,) will be brought about by
JERVIS' INFORMATION EXCHANGE.

IT COSTS NOTHING TO REGISTER REAL ESTATE at this Institution; and by doing a large business, with a large connection, the commissions on property sold will be greatly reduced, and its advantage as a place of reference, where the particulars of the great mass of real estate changing hands can be obtained, will be fully felt.

Already a large amount of City and country property has been registered, and many eligible investments offered.

The best possible reference in regard to the character of JERVIS' INFORMATION EXCHANGE,

COUNTRY RESIDENCES.

BEAUTIFUL COUNTRY HOME,
Near New-York City,
FOR SALE LOW,
AND
VERY LITTLE CASH REQUIRED,
AS
MOST OF THE PURCHASE MONEY CAN REMAIN FOR A TERM OF YEARS.

The late Homestead of the Rev. Dr. Strong, S. T. D., (who is now in charge of Troy University) located in the pleasant, retired village of Flushing, twelve miles east of New-York City. No other place near the Metropolis is so conveniently accessible, as almost all hours of the day, both by steamboat and railroad—the time by railroad being less than one hour, while a ride to Flushing in the open horse cars or boat is far more pleasant than a passage on any of the public conveyances to the upper part, or even the centre of New-York City. Flushing is an exceedingly pleasant Country Town, abounding in nurseries, green houses, public or commercial gardens &c., &c., while the country back, for many miles, is dotted over with the country seats of numerous retired as well as active business men (so well people have most of the dwellers in this suburb of New York City seen with their homes that little or no ado has ever been made to bring it into notice by advertisements or newspaper notices. Very few persons who have gone to Flushing have sold out to go elsewhere, except on imperative business calls.)

Flushing is scarcely surpassed for its advantages of churches, good schools—both public and private, &c., while its main business being confined chiefly to Trees and Plants, it is free from the usual commercial turmoil of manufacturing and trading towns.

The dwelling above referred to, now for sale, was bought a few years since by Dr Strong, as a permanent home, after a thorough examination of all the localities near New-York, and his transfer to the Troy University is the only reason for its now being offered for sale.

The LOCATION of the dwelling is elevated, having a fine look out upon the bay and adjoining landscape.

The GROUNDS, consisting of near one and a half acres, were formerly part of a public nursery, and are therefore in the highest state of cultivation and improvement. They are laid out in the most tasteful manner, with gravel walks flagging, borders, &c. The trees and plants are of the choicest variety, and are now full grown. There are a great number of grape vines, beds of strawberries, with the New-Rochelle blackberry currants, and other kinds of small fruits, while among the large ones are some ten very choice cherry trees, (Black Tartarian, Bleak Eagle, Amber, Mayduke, &c.,) with numerous pear trees, (Bartlett, &c.,) apples, &c., &c. Several of the ornamental trees are so fine that the nurserymen in the vicinity frequently bring their customers to see them as choice specimens.

The HOUSE is in modern style, built throughout in the most substantial manner, and is in complete order. The main part of the building is about 50 by 40 feet, two stories high, with large, commodious wings on each side. The basement and cellar rooms are nearly above ground, and always dry. The rooms in both the first and second stories are high, with walls hard finished and painted. There are numerous closets, pantries, and similar conveniences. There is an excellent well of water, and a large cistern at the door. The front walk is flagged and curbed, and lighted with gas.

PRICE—(if called for soon) only $12,000—of which $9,000 or $10,000 may remain on interest for a term of years, if desired.

This is, undoubtedly, a rare opportunity to secure an elegant, commodious, and pleasant home, combining all the advantages of the country, with the facilities and conveniences of immediate vicinity to the Metropolitan City.

REFERENCE:

The Editor of the *American Agriculturist*, No. 189 Water-st., has resided in Flushing for some years, and has lately purchased a permanent country seat there. The agents for the sale of the above place, therefore, (by permission,) refer any inquirer to him, as his personal and intimate acquaintance with the location and character of the premises will enable him to speak definitely in regard to it. He is also in possession of the terms of sale, etc.

Special Meeting of the Board of Aldermen.

REMONSTRANCE AGAINST THE PROPOSED AMENDMENT OF THE CHARTER—A COMMITTEE TO GO TO ALBANY.

A special meeting of the Board of Aldermen was held yesterday, pursuant to the following call:

NEW-YORK, April 1, 1859.

To the Hon. Thos. McSpedon, President of the Board of Aldermen:

DEAR SIR: The undersigned, members of the Board of Aldermen, respectfully request you to convene the Board of Aldermen on Friday (this) afternoon, April 1, 1859, at 3o'clock, in the Chamber of the Board, for the purpose of devising such measures and taking such action as to them may appear best calculated to prevent the passage of any Act or Acts by the Legislature of this State, having a tendency to interfere with or curtail the vested rights of the Mayor, Aldermen and Commonalty of the City, and such other business in such connection as may legitimately come before the Board.

GEO. STARR, Seventh District.
MICHAEL TUOMEY, Sixth District,
JOHN H. BRADY, Fifth District.
HENRY SMITH, First District.
F. A. A. BOOLE, Twelfth District.
WM. J. PECK, Eleventh District.
JOHN T. HENRY, Third District.
THOMAS STEPHENS, Fourth District.
JOHN J. BRADLEY, Fourteenth District.
THOMAS. W. ADAMS, Eighth District.

Thereupon the President issued the following call for a meeting of the Board.

D. T. VALENTINE, Esq.—*Dear Sir:* You will please notify the members of the Board of Aldermen to meet at the time specified in the request of a majority of the members, and oblige, THOMAS McSPEDON,
President of the Board of Aldermen.

Present: Thos. McSpedon, Esq., President in the chair, Aldermen Smith, Henry, Stephens, Brady, Tuomey, Starr, Adams, Lynes, Boole, Bradley, Owens and Genet.

On motion, the reading of the minutes of the last meeting was dispensed with.

The following remonstrance against the passage of an act amending the Charter of the City of New-York was presented by Alderman SMITH:

To the Legislature of the State of New-York:

The petition of the Common Council of the City of New-York respectfully represents,

That by the laws and Constitution of this State they are the legally constituted guardians of the rights and interests of the people of the City of New-York:

That elected directly by the people, they are immediately and directly responsible to the people for the performance of this trust.

That among the duties devolving upon them is, of necessity, that of taking care that no usurpation of the powers properly belonging to the City Government shall be permitted.

That, therefore, they now approach the Legislature with a humble remonstrance against a measure which is calculated, as it seems to them, to invade the chartered and constitutional rights of the city.

That they are informed that a bill has been introduced into the Legislature, materially altering the Charter of the City, which has been privately and secretly prepared, in respect to which neither the people of the City nor any of their elected officers have been consulted, and which proposes a disfranchisement in fact of the great body of the people

That such bill is a violation of the Constitution, inasmuch as it takes away from the electors of the City the power of control over their City affairs, which the Constitution intended to secure to them.

That it is dangerous to the best interests of the City, inasmuch as it takes from the Common Council, who are elected by and are responsible to the people, the power over contracts and subordinates, and transfers it to a Board who are not elected and are not directly responsible to the people.

That it is injurious, inasmuch as it lengthens the term of office of certain incumbents, thus virtually conferring power upon the Legislature at the capital and taking it away from the local authority upon whom the Constitution has conferred it.

That it is corrupting, inasmuch as it lessens the term of office of the Counsel to the Corporation, whose peculiar province it is to defend City rights against aggression, and that it is in part a violation of the Constitution in this, that while it does indeed leave the office of the Common Councilmen untouched, it virtually abolishes the office by transferring the great bulk of its power from officers elected by and responsible to the people of the City, and conferring it upon men who do not owe their position to the people, but in fact to the Legislature.

Therefore, the Common Council of the City of New-York respectfully but earnestly remonstrate against the passage of the bill in question, and inasmuch as said bill has been introduced into the Legislature without any consultation with or notice to the people or the authorities of the City, and no opportunity has been afforded of being heard against its provisions, the said Common Council do further respectfully but earnestly pray that before final action upon it, they may be heard by their counsel either at the bar of the Houses or before their Committees.

And they are the more strenuous in presenting this request, because of the entire disregard of the existing statute which enacts that six weeks' public notice shall be given of an application to alter, amend, or extend the charter of any corporation, which notice, when the application shall be for an alteration in any charter already granted, shall state specifically the alteration intended to be applied for.

Which was adopted by the following vote, viz.:

AFFIRMATIVE—Aldermen Smith, Henry, Stephens, Brady, Tuomey, Starr, Lynes, Peck, Boole, Bradley, Owens, the President and Alderman Genet—13.

Whereupon the following resolution was adopted:

By Alderman PECK,

Resolved, That a Committee of eight be appointed to wait upon the Legislature and present to them the Remonstrance of the Common Council against the amendments proposed to be made to the Charter of the City now in the lower branch of that body, which was adopted, and the President subsequently appointed Aldermen Smith, Boole, Starr, Peck, Bradley, Brady, Stephens and Owens as such Committee.

By Alderman LYNES,

Resolved, That the Board of Councilmen be and they are hereby respectfully requested to concur with the action of this Board in the adoption of the accompanying protest and resolution; and that they also be requested to appoint a similar Committee of eight to act in connection with the Committee appointed by this Board—which was unanimously adopted.

On motion of Alderman BOOLE, the President was added to the Committee.

On motion of Alderman BOOLE, it was ordered (if the Board of Councilmen concur) that the President be authorized to employ counsel to represent the Committee before the Legislature.

Alderman PECK moved that the proceedings of the meeting be published at length in the principal newspapers of the City, which was carried.

And on motion the Board then adjourned.

D. T. VALENTINE, Clerk.

A Spicy Letter.

MAYOR TIEMANN'S RENOMINATION OF E. F. PURDY FOR CITY INSPECTOR.

MAYOR'S OFFICE, NEW-YORK, 31st March, 1859.

To the Honorable the Board of Aldermen:

GENTLEMEN: I have received from the Honorable the Board of Aldermen a communication made by me nominating ELIJAH F. PURDY, as City Inspector, in place of GEORGE W. MORTON, whose term of office expired on the 31st day of December, 1858, by the 81st section of the charter of 1857. This communication has been returned to me by your honorable body, with the following indorsement:

"BOARD OF ALDERMEN, March 24, 1859.

So much of the within communication as relates to the withdrawal of Dr. S. CONANT FOSTER, referred to the Special Committee on City Inspector, and so much as relates to the appointment of ELIJAH F. PURDY to said office of City Inspector, directed to be returned to his Honor the Mayor D. T. VALENTINE, Clerk.
Per F. J. TOUMEY, Deputy."

I deem it my duty again to call the attention of the Board to the fact that I have nominated ELIJAH F. PURDY as City Inspector, in place of GEORGE W. MORTON, whose term of office has expired on the 31st day of December, 1858, and that such nomination has neither been rejected nor confirmed.

The action of the Board of Aldermen in returning to me with the indorsement I have referred to, my communication in which I have nominated Mr. PURDY is in my judgment without authority. The nineteenth section of the charter imposes on the Mayor of the City the duty of nominating certain public officers of the City, and to the Board of Aldermen belongs the duty of confirming or rejecting such nomination. In pursuance of this provision on the 5th day of January last, I nominated to the Board of Aldermen Dr. S. CONANT FOSTER to the office of City Inspector in the place of GEORGE W. MORTON. This nomination was made only after I had the consent of Dr. FOSTER to present his name to the Board. My authority to use his name has been revoked by Dr. FOSTER withdrawing his name and refusing to allow it to be presented to the Board of Aldermen. This withdrawal of Dr. FOSTER'S consent was communicated to your honorable body at the time I nominated Mr. PURDY to fill the place of Mr. MORTON. The refusal of Dr. FOSTER to permit his name to be used formed the foundation of my action in nominating Mr. PURDY. Since the withdrawal of Dr. FOSTER no action has been had by the Board. It appeared therefore to me that the duty which I owed to my constituents required me to take proper measures to have an important office filled without delay. Under the Charter the Board of Aldermen has the right to confirm or reject the nomination of the Mayor. Months had expired without action on the first nomination made by me of Dr. FOSTER, and in the present instance my second nomination is returned to me without any action of the Board. After a nomination has passed from my hands into the Board of Aldermen, the Charter assumes that it will be confirmed or rejected, so that the public interests shall not be permitted to suffer by delay. The 19th section of the Charter expressly states that when the Board of Aldermen shall reject a nomination made by the Mayor, that officer shall immediately nominate another person. This provision would seem to require prompt action on the part of the nominating power, which should naturally devolve as a condition on the part of the confirming body on act on such nomination.

[illegible] cannot but admit that so far as the Charter has been committed to me any duty in relation to the office of City Inspector, since it became vacant on the 1st day of December last, I have endeavored to fulfil that duty. It does not become me to be the [illegible] of the acts of a coördinate branch of the Municipal Government, but the Board may rest assured that all the power which has been vested in the Mayor shall be exercised by me promptly, with a single view to the promotion of the public interests. Our constituents look to the Mayor and Board of Aldermen for the preservation of the public [illegible]. The immense interests of a great commercial City are not to be jeoparded by permitting the office of City Inspector to remain a subject of contest and doubt. The Summer is approaching, and proper precaution should be taken to prevent pestilence from breaking out amongst us. I urge the nomination of Mr. PURDY, I have pressed the name of a citizen familiar to you all as a man of [illegible] of integrity and ability to discharge the duties of the office which I have nominated him. On your de-

volves the responsibility of deciding whether he shall be confirmed or rejected. I accordingly return your honorable body the communication in which the nomination was made.

DANIEL F. TIEMANN, Mayor.

BROOKLYN INTELLIGENCE.

FIRES.—At 11 o'clock, Thursday night, the fur factory of ADOLPH SEYBOTH, on Walton-street, near Marcy-avenue, was destroyed by fire Mr. S. estimates his loss at $6,000, upon which there is an insurance of $3,000. The building belonged to SAMUEL WILWELL, and was valued at $1,500. On the same evening an attempt was made to burn the Long Island Railroad Dépôt, at the foot of Atlantic-street. Fortunately an employe of the Company discovered the fire in season to prevent serious damage.

POLITICAL.—The Republicans in the Fourth Ward have nominated the following ticket: *Supervisor*—SAMUEL BOOTH; *Assessor*—DAVID APPLICK: *Constable*—ALEXANDER CASHON. The same party, in the Eighteenth Ward, have nominated ADRIAN SUYDAM for Supervisor, JACOB BENNETT for Assessor, and JACOB MORRIS for Constable.

HABEAS CORPUS PROCEEDINGS—INTERESTING POINT OF PRACTICE.—Supreme Court, Kings County, Special Term, April 1, before Judge LOTT.—*The People ex rel. Wright vs. Wright.*—This was a controversy between husband and wife for the custody of their child. On Monday last, Mr. Calicot, counsel for the wife, moved for a writ of *habeas corpus* commanding the defendant to bring the child before the Court, that its custody might be awarded according to law. Judge LOTT proposed to grant the writ returnable before either the City Judge or the County Judge, as it was inconvenient for him to hear the case while holding the Circuit; but Mr. Calicot argued that the writ in this special case could only be allowed by and made returnable before the Supreme Court. In 1840, the Supreme Court sitting at Albany granted the writ in the similar case of Barry and Mercein returnable before Judge Oakley of the Superior Court in the City of New-York; but in the recent case of The People *ex rel.* Rhoades *vs.* Humphreys, (24 Barbour, 521,) it was held by all the Judges at the Cayuga General Term that the Supreme Court has sole jurisdiction of such cases under the statutory provisions, (2 R. S., 148, § 1—3.) Judge LOTT took the papers, and after examination of the authority cited, indorsed the writ on Tuesday as "allowed by the Court," and made it returnable on Friday morning. Mr. Callicot then stated to the Court that, upon consultation between him and Messrs. Ferris & Cushing, counsel for the husband, a compromise had been effected, and the child had been surrendered to the charge and custody of the wife.

CAUTION TO THE DEAF.

Dr. HARTLEY begs to state that he has no connection whatever with any person advertising to cure deafness. Neither has he given permission for the publication of a certificate purporting to emanate from him, and cannot, therefore, be responsible for any alarming consequences resulting from rashness or desperation.

The loss of money may not be material to some persons, but the deprivation of one of the most important of the senses ought to be regarded and treated with more than ordinary solicitude.

Deafness, noise in the head, and all disagreeable discharges from the ear speedily and permanently removed, without causing the least pain or inconvenience. A cure in all cases guaranteed where malformation does not exist.

Thirteen years' close and almost undivided attention to this branch of special practice has enabled him to reduce his treatment to such a degree of success as to find the most confirmed and obstinate cases yield by a steady attention to the means prescribed.

The following testimonials are submitted with confidence. They will show at least in what estimation his professional qualifications are held by some of the most distinguished medical men of the country:

I have had the pleasure to meet Dr. HARTLEY in practice, and have been led to form a favorable opinion of his character, both in profession and as a gentleman.

W. H. PARKER, M. D., Professor of Surgery.

From my intercourse with Dr. HARTLEY, I have found his deportment to be correct and gendemanly.

VALENTINE MOTT, M. D.

Dr. HARTLEY will receive calls each morning, at his residence, No. 26 Clinton-place.

The value of human life is never properly appreciated until it is in danger, or has been lost. The recent disaster on the North River, by which a bargeman was drowned, and the fatal collision of steamers on the Ohio, through which 42 people were consigned to watery graves, tell us that we cannot be too careful as to the preservation of existence no matter where we may be. We cannot really see why people will go upon the water without the surest preventive of drowning ever invented. This grand discovery takes the form of ordinary clothing, and is made into coats, vests, waists for ladies' dresses, childrens' jackets, &c., at the cost of ordinary garments. This safety-apparel can be used just as is the clothing we now wear. The office of this Company is at No. 256 Broadway. We recommend these certain life-saving articles to all travelers—in short, *to everybody!*

PRUDENT FORETHOUGHT.—A few days since an awful disaster occurred on one of the Canada railroads, which resulted in the death of some nine or ten persons. Among the same was a passenger who rejoiced, not so much at his own escape as at the fact that he had preserved uninjured one of KNOX'S elegant Spring style hats, which he had purchased on the corner of Fulton-street and Broadway.

FRIDAY, April 1—P. M.

The dealings at the Stock Exchange are at least growing in interest and excitement, if not in prices. The breakdown in New-York Central and the Western Stocks on Wednesday was not exactly of a panic character, but brought about by the main force of the speculators for the fall, who have made money—or collected heavy differences—of late, and who, as they can afford to do, multiply new contracts with uncommon boldness. The favorable reaction of yesterday morning was followed, as we stated in our last report, by renewed offers to sell the shares referred to, after the orders of the day were supplied, at lower rates. In turn, the demand this forenoon was better, and a pretty free business was done at steady and rather improving prices. On the meeting of the Second Board the contest was quite close, but on the printed list the *Bear* account had the advantage. But after the regular adjournment the bids were stiffer on nearly the whole of the list, and the market finally left off firm. It has a good support in the demand for State Stocks, which was large for Missouris at 87 ℔ cent., (a further rise of ¼ ℔ cent.,) and for Tennessees at 92½ ℔ cent. There is also more inquiry for Railway Mortgages. The half-yearly interest on several descriptions was paid to-day. Illinois Construction sold at 88@87 ex coupon, and Michigan Central 8s at 94¼ ex coupon. There was a recovery of 5 ℔ cent. in Michigan Southern seconds from the low sales of Thursday. The Bonds now stand at 63, as high as before the late report. Hudson River thirds have advanced to 77¾ ℔ cent. in sympathy with the shares, which attract increased attention and went up to 33⅛@⅜ ℔ cent. The fluctuations in New-York Central were from 76⅜ to 77; then to 76½, seller 3 days, large sales, and up to 76¾@76⅞ at the close. Rock Island, which left off 55⅜, yesterday sold heavily at 55⅛@55⅜ and closed 56 bid. Galena, 66⅞@67 sales and 67 bid at the close. Toledo steady at 25@25⅛ ℔ cent. Michigan Southern Guaranteed fluctuated from 39¼ to 39⅜, then dropped to 39⅛ and closed 39⅛ bid. In Reading the business was large, 50⅛ to 51 ℔ cent., last sale 500 shares 50⅜, seller 3 days. Delaware and Hudson fell 1 ℔ cent. more, closing 97 cash; Pennsylvania Coal, 80; Pacific Mail was again firm and in demand, and sold at 79½@79¾. Panama steady, 117⅞ ℔ cent. There was not much done in the Federal fives, the price 104¼ ℔ cent.

The old firms of Stockbrokers are more generally supplied with Money subject to call at 4 ℔ cent. than at 5 ℔ cent. The outside lenders are disposed to accept lower terms on the temporary employment of their idle means than the Banks, and the same feeling extends to prime selections of long date paper, the rates on which are 6@7 ℔ cent. as the rule, with exceptional cases a fraction below 6 ℔ cent. At Bank, all fair bills falling due this side the 1st of August go at from 5 to 7 ℔ cent., according to date classification, and the wants, at the time, of the Bank to which they are offered. The irregularity is quite marked even in 60@90 days' paper; and we understand that less than the ordinary discrimination is shown by the Discount Brokers in bargaining for lists of Auction and other heavy trade bills at 4@6 months. The proceeds of large Auction sales of Teas, Dry Goods, &c., and of cargo sales of Sugar, Hides, &c., are frequently contracted for in advance, on single name bills, the round list. The same state of things was not unusual last Fall and early in the Winter. Such facts reflect not only the easy state of the market, but a large confidence in the safe and improving condition of trade. That this confidence may be carried too far, in the end, is not at all improbable. The Customs to-day were very large, about $298,000. The Secretary of the Treasury will well be assured of his ability to carry on the Government with his present ways and means. His Customs at New-York in March, including the Treasury bills paid in for duties, were not far from $3,300,000, against $1,536,000 same month last year. The export of Bullion, which was light by Wednesday's steamer, will be increased by the *Arago* to-morrow, as the underwriters are taking the risk a fraction lower after 1st April. The engagements of Gold Bars, of which the last California steamer brought about a million of dollars, amount to about $800,000; though this sum includes some Mexican silver received early in the week from New-Orleans. Exchange closes 109¾ on London, f.5 12½ on Paris, bankers', and 109⅜@109⅝ and f.5.15 merchant bills. There is less excitement in Cotton, and prices since the arrival of the *Persia* are ⅛c.@¼c. lower.

The *Commercial* of this afternoon says of the Southern trade:

"One of our leading private bankers who has just returned from the South, after spending several of the Winter months in New-Orleans, informs us that he has seldom witnessed such evidences of prosperity and rapidly accumulating wealth. The banks are rich, the factors and merchants richer, and the planters richest of all. The last named are paying fabulous prices for negroes to add to their available cotton-growing force the coming season. The following is a specimen of the Bank Dividends at New-Orleans this year:

	Net Profits.	Dividends.
Citizens' Bank	$518,429	15 ℔ cent.
Bank of Louisiana	484,904	15 ℔ cent.
Louisiana State Bank	296 685	13 ℔ cent.
Canal Bank	337 072	10 ℔ cent.
Union Bank	34,075	9 ℔ cent.
Mechanics' and Traders' Bank	92,665	9 ℔ cent.
Southern Bank	153 795	8 ℔ cent.
Bank of Jas. Robb	73,040	8 ℔ ct."

The Albany *Evening Journal* states that next "Monday, April 4, the new Time-Table goes into effect on the Central Railroad. Its increase of speed, and more convenient arrival and connection of trains, will be considered as great improvements upon the Winter arrangement by all travelers and all who have anything to send or receive by the mails;"

The newspaper and private accounts from the Lake region and from Southern Illinois in regard to the growing Wheat crop continue good. The preparations making through this market by the country merchants of the Northwest for the Summer business also indicate a better confidence in the improvement of the crops and the ability of the people to consume goods.

The Coupons on the Syracuse, Binghamton and New-York Railroad Company's Bonds, due 1st of April, are payable on and after that date at the Continental Bank.
